SHE/HER

### Carla-Anide Guillaume

Passionate about international cooperation, sustainability, and technology, Carla Guillaume is dedicated to making our global village a better place for future generations. She is currently working as research assistant for the International Training Program in Development Evaluation where she monitors gender integration, the effectiveness and sustainability of development programs in francophone Africa and Haiti. Carla has completed an undergraduate degree in Political Science from Concordia University and is currently pursuing a Master of Public Administration at the École nationale d'administration publique du Québec (ENAP). She has received an Emerging Talent Award from the Bar of Montreal and through her leadership and community involvement, continues to be committed to social issues like environmental justice, inclusion and gender equality. Alongside her academic and professional accomplishments, Carla is also the editor of an online publication called SAYASPORA, a platform for young African women worldwide, and a member of the World Economic Forum Global Shapers hub of Montreal.

### CANADA Digital and Technology

SHE/HER

### Mojann Zibapour

Mojann Zibapour holds a Master of Global Affairs from the Munk School at the University of Toronto and a Bachelor of Political Science in the bilingual program from the University of Ottawa. Currently, she is an Advocacy & Events Specialist at the Institute for Canadian Citizenship (ICC) working on matters of inclusion, diversity, and active citizenship. In partnership with Immigration, Refugees and Citizenship Canada, she works to host enhanced citizenship ceremonies across the country in every province and territory. Prior to joining the ICC, she held positions at Rideau Hall for the Office of the Secretary of the Governor General of Canada and the Ministry of Infrastructure on both west-coast operations and disaster mitigation projects. Additionally, she worked at Swisspeace, a think-tank and NGO in Bern, focusing mainly on matters of peacekeeping and transitional justice. Finally, she is fluent in English, French, Farsi (Persian) and Spanish.

### CANADA Economy

HE/HIM

### Rahul Pallan

Rahul is a Master's Candidate in International Affairs and Global Cyber Security at King's College London. His experience includes several years at the Organization for Economic Cooperation and Development in Washington D.C. in support of the Office of the Secretary-General, and Director of the OECD Washington Centre. Rahul has served on delegations to the World Bank & IMF, United Nations General Assembly, and government institutions across Canada and the United States. Throughout his career, he has learned the importance of engaging stakeholders across several policy areas to create a sustainable and inclusive road map for the future. More recently, Rahul completed an international graduate traineeship at the U.S. Department of State, working on the bilateral trade relationship between the United States and Canada. His growing presence in the multilateral sphere has allowed him to share the youth perspective at high-level global gatherings, including the Civil Society 20 Summit in Saudi Arabia and this year under the Italian presidency. Rahul continues to work across engagement groups to the G7 and G20. He is also active with the OECD Forum Network and several OECD initiatives including the OECD Future of Work campaign, as a trusted young advocacy leader.

### CANADA Health

THEY/THEM

### Erika Dupuis

Erika is a practicing Registered Social Worker in the greater Toronto area. Passionate about community education and youth engagement, Erika has supported several youth-led organizations aimed at advancing youth health equity. Erika has contributed to multiple projects at local, federal, and international levels with expertise in education, food justice, harm reduction, alternative youth justice, and sexual and reproductive health. Erika is a current Leading Social Justice Fellow with the University of Toronto and United Way and recently completed a Post-Master's Certificate with New York University. Erika is a graduate of the Master and Bachelor of Social Work programs at Ryerson University where they conducted original research on harm reduction and health equity in Toronto.

# France

## FRANCE Climate and the Environment

SHE/HER

### Clara Azarian

Clara Azarian, 24, comes from a multicultural family and she grew up in Feucherolles, a small town not very far from Versailles, in the South-West of Paris. She is now an engineer from the « Corps des ponts, eaux et forêts » which is related to the French Ministry of Ecological Transition and Ministry of Agriculture and Food. She has gained a generalist and solid scientific background in mathematics, physics and chemistry from her studies at Ecole Polytechnique in France from 2016 to 2019. During her 6-month internship at La Fondation des Apprentis d'Auteuil, she worked as an educator to accompany troubled teenagers through their academic and/or social hardships: this experience was really important as it sensibilized her to social issues and to the importance of education. As part of her engineering studies, she also did a research internship at CSIRO, Ocean & Atmosphere in Hobart, Australia about the use of environmental DNA for detecting population structure in the marine environment which led to a publication. Last year she specialized in Oceanography at the University of Southampton in the UK where she did her research project on marine nature-based solutions, since she is fascinated by the ocean world, its richness and potential from both a scientific and public policy point of view. As part of her current formation in public policy for sustainable development at AgroParisTech and Ecole des Ponts Paris Tech in France, she is currently doing an internship at the French Ministry of Europe and Foreign Affairs about biodiversity related issues such as the current negotiations around the protection of marine biodiversity in areas beyond national jurisdiction. She is passionate about music and theatre: she was president of the drama club at Ecole Polytechnique. She reached the brown belt in judo/jujitsu and is fond of basket-ball.

## FRANCE Digital and Technology

HE/HIM

### Noé Michalon

Noé Michalon, 27, was born and grew up in Ardèche (Southern France) before following higher studies in Paris. Since 2019, he lives in Nairobi, Kenya, where he works as a political analyst. A former journalist focusing on energy in Africa (Africa Intelligence), he studied political science, journalism, international relations, and African Studies in France (Sciences Po) and the United Kingdom (Oxford). He also spent a year working as a press attaché at the Embassy of France in Uganda and a year covering the 2015 presidential elections in Côte d'Ivoire for an Ivorian press agency, Alerte Info. He had interning and freelancing experiences for other French media outlets, such as Le Monde, La Croix, France Télévision and Clique TV. Some of his works focused on parliamentarism and media narratives in Gabon and Kenya. Noé is particularly interested by issues pertaining to environment and global inequalities, two domains deeply linked to the current COVID-19 pandemic and its devastating consequences. Alongside with his fellow delegates, he sees in the Y7 a unique opportunity to convey and defend some of their generation's most pressing claims before global leaders who have the power to change and improve the situation. Beyond this event, he is committed to support at his scale further changes in favour of more inclusive, democratic and socially fair societies. In his free time, Noé is volunteering for SAYes, a Cape Town-based NGO offering mentoring sessions to young South Africans. Noé is fond of literature and poetry (he decently attempts to write some), football (he modestly attempts to play some) and tennis (he is sincerely not attempting anything).

## FRANCE Economy

SHE/HER

### Gabrielle Rousseau

Gabrielle Rousseau, 23, is a Master student at HEC Paris and at the Fletcher School of Law and Diplomacy in Boston, where she is studying business as well as development economics and international affairs. Her professional experience stems both from the public and the private sectors, leading her to work in Sovereign Advisory, counselling developing countries on debt restructuring, public infrastructure investment, and sovereign rating, amid the pandemic crisis. Reconnecting with her dual Franco-Chinese origin, she is learning Chinese and wishes to continue working on development issues abroad in the coming years, especially in Asia. Gabrielle has already had some experience with the G7 working at the French Ministry of Foreign Affairs on the G7 Biarritz Summit in 2019, under French Presidency, where she attended the negotiations and participated in the drafting of the French proposal on environmental, digital, women's empowerment, and economic issues. This experience has spurred her interest in multilateral diplomacy. She has since then participated in the organization of other international events, such as the student-led 2020 European conference at Harvard University, where she worked on trade and multilateralism issues. As a Y7 delegate, she is determined to call for courage, innovation, and accountability in multilateral engagements, and to act as a channel for the concerns and the demands of young generations from her home country and elsewhere.

## FRANCE Health

HE/HIM

### Rycahel Eric Andriana

Rycahel Eric Andriana, 19, is a 2nd year student in double degree: Political Sciences-Philosophy at Paris 1 Panthéon Sorbonne University. From Reunion Island in the Indian Ocean, he flew directly to Paris for stacking the odds in his favour. He studied during 17 years in Reunion Island, sharing his life between creole and malagasy cultures, due to his two malagasy parents. There, he developed eclectic hobbies, such as taking part in chess competitions, playing many instruments in music groups, discovering the joy of biology, French, philosophy or discovering many sports demanding completely diverse skills. At 17, entering the social sciences and economics pathway, he discovered how curiosity could be used in general interest's service, as defending fairer education, territorial equality, multiculturalism. Thus, he is working to achieve his first goal of being a senior civil servant. But by the time he was discovering political sciences, he also found out the particular domain of international relations and of international relations theories due to one of his courses in first year of Bachelor. The combination of his passions for oratory, public speaking and debating naturally leads him to the world of diplomacy. As during his first years in Reunion Island, he intends to develop the most diverse skills in various different fields in order to implement them in the interests of general well-being. Finally, alongside his will to work in Public Affairs, Diplomacy, or Philosophy research, he is doing his best in all the projects he is invested in, because he thinks that youth has to be ambitious. Being ambitious necessarily means outdoing his capacities.

# Germany

**GERMANY** Climate and the Environment

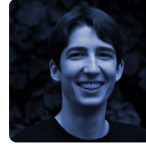

SHE/HER

## Hannah Schartmann

Hannah Schartmann is 26 years old. After her Bachelor of Science study in Biology and her Master of Science study in Marine Biology, she started to work in the management board of the political party BÜNDNIS 90/DIE GRÜNEN in Rostock, Germany. In her free time, she is a member of the Green Youth and represents them in the National Working Group "Animal Health Policy". She is also the project manager of the project "The climate change at our doorstep", which has the aim to present the climate change in a comprehensible manner like articles, photos, graphs and videos.

**GERMANY** Digital and Technology

HE/HIM

## Johannes Röder

Johannes Röder, 21 years old, currently studies computer science and technical communication at RWTH Aachen University. After graduating from high school, he completed a weltwärts voluntary service in Chile. There he was involved with the YMCA Santiago in working with children, young people and people experiencing homelessness. Besides his studies, he volunteers in the international work and the work with young adults of the YMCA Germany. Since June 2020, he has been involved in the Weltwärts programme steering committee as an elected volunteer representative.

**GERMANY** Economy

HE/HIM

## Tobias Knörich

Tobias Knörich, 21 years old, studies International Relations & Management in Regensburg, Southern Germany. He has long been engaged in leading youth empowerment in the international YMCA movement, locally and globally. After graduating from school he served as Federal Volunteer and gained experience in China. He is also politically involved and a scholarship holder of the Konrad-Adenauer-Foundation, which advocates democracy, rule of law, social market economy and European unification. In addition, he is committed to sustainable (economic) solutions, global justice and building intercultural bridges.

**GERMANY** Health

SHE/HER

## Mira Gunkel

Mira Gunkel is 27 years old. She finished her Bachelor Degree in Educational Science and Sports Science and now does a Masters Degree in Educational Science. Meanwhile she enrolls into a psychotherapist 3-years education and also works with a psychotherapist for kids and teenagers. In her free time she enjoys doing sports and coaches kids. She also volunteers in a digital advice platform for youth dealing with critical issues and worked with DOA (Germany Olympic Academy) and represented Germany in the 58. International Young Participants Session in 2019.

# Italy

## ITALY Climate and the Environment

SHE/HER

### Rachele De Angelis

Graduate student at the Paris School of International Affairs in August 2019, Rachele is currently enrolled in the last semester of her Master in International Public Management. Always passionate about international management of climate change and public policies for sustainable development, she joined the OECD Environment Directorate in June 2020, in the Green Growth and Global Relation Unit. She contributed to the organisation of the Green Growth and Sustainable Development Forum, and researched on the topics of the green-inclusive growth nexus, where she focused on the costs of climate change and environmental degradation on different societal groups. During the first months of the pandemic, she volunteered in a young start up, launched as a platform to support Italian SMEs engaged in sustainable business. In a few weeks, Rachele will be back at the OECD, this time at the Public Affairs and Communication Directorate, where she'll contribute to the upcoming events of the OECD Forum. Former rhythmic gymnastic athlete, she now enjoys running long distances in her hometown - Rome. Always a history enthusiast and passionate about opera and classical music, her free time is split between playing the violin and reading historical books and articles.

## ITALY Digital and Technology

HE/HIM

### Fabio Boniolo

Fabio Boniolo is PhD student in computational biology at the Institute of Translational Cancer Research and Experimental Cancer Therapy in Munich (Germany). His work lies at the intersection of biology, mathematics and statistics and it exploits the increasing availability of biological data to develop computational tools able to describe and characterize complex diseases such as cancer. He is passionate about technology and innovation and he deeply believes in the potential of digitalization. Throughout his career, he has always tried to use new technologies, such as artificial intelligence, as means to bring real change to society. Different experiences across industry and academia and in different parts of the world made him appreciate the importance of collaboration and multidisciplinary and their pivotal role in the design of strategies able to tackle the biggest adversities of our time.

## ITALY Economy

HE/HIM

### Tullio Ambronsone

Tullio Ambronsone is chief analyst and editor at Associazione Italia-ASEAN working on global economics with a focus on the relations between Europe and Asia. He holds a bachelor degree in Politics, Philosophy and Economics from LUISS University in Rome and a Master in European Affairs from SciencesPo Paris, where he studied the international economic and political relations of the European Union. After his academic experiences, he worked at NATO and the European Parliament coming into contact with relevant international organizations and delving also into the geopolitical dimension of economic affairs. His great passions are politics, history and art.

## ITALY Health

SHE/HER

### Giulia Bosi

Giulia is a PhD candidate in Human Rights and Global Politics at Sant'Anna School of Advanced Studies in Pisa (Italy). She holds a degree in Law from University of Bologna and a LLM from King's College London, where she specialised in International Law. Giulia's expertise lies in the right to health and access to healthcare, areas on which she is writing her doctoral thesis. Before the PhD, she worked in Geneva (UN) and Brussels (EURORDIS), where she closely followed the international and European policy development in the health field, and Cape Town (Scalabrini Centre), where she often provided legal advice to asylum seekers who were denied medical attention. She also volunteered at Evelina London Children's Hospital (UK) and for a public health NGO in Cusco (Peru). Her big passions are travelling and practicing improvisational theatre.

# Japan

## JAPAN Climate and the Environment

HE/HIM

### Tetsu Watanabe

Tetsu majored in economics at the University of Tokyo and currently works for a global management consulting firm as a sustainability focused consultant. Tetsu is primarily focused on climate change and global decarbonization and works with cleantech experts and climate scientists worldwide on a broad range of international projects including sustainability strategy building and its execution. In the past, Tetsu worked at the Prime Minister's Office of Japan and was responsible for the Global Communications of its sustainability and economic initiatives. At the Government, he led a number of Japanese delegates to visit the US and Canada to discuss climate change and other global issues with local experts.

## JAPAN Digital and Technology

SHE/HER

### Kanako Nannichi

Having spent her childhood in Germany and in the United States, Kanako is currently working in Singapore as a senior analyst at an investment bank. She graduated Keio University in Tokyo with a Bachelors degree in Law, with a specialisation in International Criminal Law, and also pursued an exchange year at Lund University in Sweden where she was actively engaged in running a student organisation. She has participated in several international student conferences and has completed an internship with an international human rights NGO, where she contributed to the publishing of a global research report.

## JAPAN Economy

HE/HIM

### Shunta Takino

Shunta Takino is a policy professional with experience in topics ranging from public health and labour market policy to international security and development. He currently works at the Organisation for Economic Cooperation and Development (OECD) in Paris, France, as a Young Associate and Junior Counsellor in the Directorate for Employment, Labour and Social Affairs. At the OECD, he is co-authoring a publication on the interlinkages of mental health with employment, education and the health system, and researching on the impacts of the COVID-19 crisis on mental health. Prior to this, he worked at the Asia-Pacific Initiative, a Tokyo-based independent think tank. Shunta holds a BA from the University of Oxford, where he studied Philosophy, Politics and Economics. Shunta is committed to shedding light on and addressing longstanding socio-economic inequalities and to building societies that embrace diversity. Having grown up in Tokyo and London, and worked in Paris, he believes in the importance of building bridges between countries and communities through youth-led activities. This led him to create the Oxford-Kyushu Model United Nations, an educational camp that brings a diverse and international group of high school and university students together and equips them with the skills to be leaders of the 21st century. Shunta is excited and thrilled to be part of the delegation from Japan to the Y7 Summit. He looks forward to consulting and engaging with young people from all backgrounds in Japan, and he hopes to bring his passion for youth empowerment, mental health, and education into discussions with fellow Y7 delegates on how to build a more inclusive global economy.

## JAPAN Health

SHE/HER

### Rena Mototani

Rena Mototani is a second year medical student at Tokyo Medical and Dental University (TMDU). She aspires to work as a cardiothoracic surgeon, influenced by a mentorship program where she shadowed renowned cardiac surgeon Professor Atsushi Amano, who had performed a coronary artery bypass surgery on the then Japanese emperor. Rena enjoys embarking on many "first's", whether it be starting the first English Debate Club at her Japanese high school upon returning from the US and ultimately leading the team to numerous international competition finals, or instituting a community strengthening initiative for the Health Sciences Leadership Program at TMDU. Whilst taking part in an online volunteer tutor program where university students provide education and mental support to younger students whose access to education was affected by the COVID-19 pandemic, she saw the dire need for adequate mental health care especially among the young generation. Although a novice still in training in medicine and diplomacy, she hopes that she can use her fresh perspectives, relentless drive, and genuine love for people to foster meaningful discussions among delegates at the 2021 Y7 Summit, especially pertaining to mental healthcare and COVID-19.

SHE/HER

## Jouja Maamri

Jouja is the Director of Impact at Regenerative Creations, an impact investment fund investing in companies that enable a better and more sustainable world. She leads their impact measurement and management strategy, as well as managing external partnerships and business development. She is also a Program Manager at Foundervine, a social enterprise building an inclusive start-up community for diverse and underrepresented founders. Jouja is experienced in working across the philanthropic and non-profit sectors, including with the US-UK Fulbright Commission and the Synergos Institute, and currently volunteers as the Community Partnerships Lead at Migrant Leaders. She is also a Young Europe Ambassador, working with the 27 Ministers of European Affairs to shape discussions on the future of Europe, and actively pushes for a more comprehensive and inclusive European asylum system. She sits on the Sutton Trust's Alumni Leadership Board, as well as Social Finance's Racial Equity Advisory Group and The Big Issue's Climate Advisory Group. She is a Young Founding Member of Impact 100 London, a Founders of the Future Fellow, and a Fellow at the Royal Society of the Arts. Jouja holds a BA in Political Science & Human Rights from Columbia University, an MSc in Migration Studies from the University of Oxford and is an alumna of SIT's International Honors Programme.

**U.K. Digital and Technology**

SHE/HER

## Evie Aspinnall

Evie is a Researcher at a Foreign Policy think where she conduct sin-depth analysis into the UK's foreign policy, and the public's opinion on it, to guide the decisions of policymakers and stakeholders. She has recently co-authored papers on the future of UK-US relations and on the geopolitical impact of coronavirus. Prior to this, she was President of Cambridge University Students' Union, leading advocacy on behalf of the 23,000 students at the University. She has a BA in Human, Social and Political Sciences from the University of Cambridge and an MSc in International Development from King's College London. She also leads UN Women UK's Student Champion network, facilitating and supporting gender empowerment campaigns across thirty University campuses. She has a keen interest in American and Chinese foreign policy and the role and responsibilities of global superpowers in the international sphere. She hopes to use this role as an opportunity to provide a voice for young people in fighting for a fairer, more just world for all.

**U.K. Economy**

HE/HIM

## Dominic Jones

Dominic is a student studying Politics at the University of Liverpool, originating from Barnsley, Yorkshire. He has significant experience in advocating on behalf of young people through his roles in the local youth council, Youth Combined Authority, Youth Voice Steering Group, UK Youth Parliament, National Youth Select Committee and national Work Experience Action Group. His interests lie especially in skills and development, part of an effective economy; he wants to ensure that young people across the country have access to the best opportunities, regardless of their location or background. Dominic aims to ensure that young people are at the heart of this summit and decision-making processes. He is both excited and honoured to have been chosen to represent the UK and aims to influence impactful change.

**U.K. Health**

HE/HIM

## Haarith Ndiaye

Haarith is an academic junior doctor working within the NHS where he spreads his time across direct clinical care, original scientific research, and teaching. He is pursuing a career within global health, particularly in the field of policy, advocacy, and humanitarian aid – a position that would allow him to influence wide-ranging policies beneficial to disadvantaged and under-represented groups both locally and internationally. In his spare time, he undertakes important work in two international healthcare start-ups, works with a number of charities increasing accessibility to higher education in disadvantaged communities and works to promote quality improvement within the NHS.

## Ben Goodrich

Ben Goodrich is the Director of Communications for Young Professionals in Foreign Policy (YFPF), and a Staff Assistant at the Consortium of Social Science Associations (COSSA), a non-profit advocacy organization for social and behavioral research and its role in shaping public policy. At COSSA, he enjoys a wide array of responsibilities including supporting COSSA's science advocacy efforts, curating COSSA's social media and newsletter, and providing policy research on issues related to research policy, public health, and national security. Ben joined COSSA following a brief stint with Global Citizen, an international non-profit concerned with poverty alleviation, where he worked as a policy & government affairs assistant. Born and raised in the Upper Midwest, Ben graduated with a dual B.A. in Political Science and History from the University of Wisconsin-Madison in 2018. Title/Affiliation: Staff Assistant at COSSA LinkedIn: <https://www.linkedin.com/in/ben-goodrich>

## EU

## EU Climate and the Environment

SHE/HER

## Ariane Giraneza

At the age of 5, Ariane came to Europe as a refugee after living in the DRC, Kenya and Tanzania. She completed a Bachelors degree in Applied Economic Sciences at the VUB (Brussels) with a minor in Political Sciences. During her bachelors degree she did a traineeship at the Belgian embassy in Washington DC. After her graduation from the VUB (Brussels) with a Master in Applied Economic Sciences majoring in Economic Analysis, she did an internship at the Economic think-tank Bruegel. Once the internship was over she worked at the BNP Paribas as an Anti-Money Laundry investigator, before finding her passion in politics. During her time as a parliamentary assistant in the Belgian federal parliament she got the opportunity to actively work on the campaign for the local elections in 2018 and the campaign for the European elections in 2019. In 2019 she started working at the Dutch embassy in Brussels as a trade attaché, which she loved. But when the opportunity to work for the cabinet of the Federal Belgian Minister of Energy arose, she couldn't let it just pass, believing that the EU is positioned right at the epicenter of multiple substantial societal issues.

## EU Digital and Technology

SHE/HER

## Franka Weckner

Franka studies law at Heidelberg University (Germany) and Cairo University (Egypt). She was chosen as a Young Expert for the United Nations Internet Governance Forum and developed comprehensive policy guidelines for social cohesion online, thereby building upon her experience as a research assistant for the Max Planck Institut for International Law. Franka was also selected as a delegate to the 5th AU-EU Youth Forum, where she contributed to developing detailed policy recommendations for the Council of the European Union and the African Union. She is part of the Europe Youth Group (GC-EUR) of the specialised agency ITU of the United Nations, where she serves as youth envoy on the topic of Cyber Security. This all lead to her being a fellow at the HIIG Virtual Clinic, which aims to develop viable answers to challenges at the intersection of ethics and digitalisation and stands under the patronage of the Federal President of Germany, Frank-Walter Steinmeier. Besides her passion for tech and internet governance she currently serves as delegate to the Board of Directors for the Youth Task Force of the Global Campaign for Education, an international coalition of NGOs including UNICEF and OXFAM.

## EU Economy

HE/HIM

## Michal Skreta

Michal Skreta is an undergraduate and graduate student at Stanford University, completing a joint Bachelor of Arts in Economics and Political Science and a Master of Science in Computer Science. Originally from Warsaw, Poland, Michal is a passionate youth representative, having previously served as the youngest-ever Youth Delegate of Poland to the United Nations General Assembly in New York, and as the President of the Polish Youth Parliament. He is a recipient of several scholarships, including the Transatlantic Future Leaders Forum (TFLF) Scholarship to work at the United States House of Representatives, as well as the ERSTE Foundation Scholarship at the European Forum Alpbach. At Stanford, Michal has served as the only international Undergraduate Senator, as the Executive Director for International Advocacy on the student government, and led the Stanford Polish Student Association as President. He conducted academic research on technology policy in the European Union with Professor Francis Fukuyama and on democratic developments in Central and Eastern Europe with Professor Larry Diamond, and completed an academic exchange at the University of Oxford. Michal hopes to combine his transatlantic leadership experiences with his passions for public policy and technology to help build a more sustainable and inclusive future of Europe.

## EU Health

SHE/HER

## Zuzanna Mieloch

Zuzanna was brought up in a multicultural environment. She lived in Poland, Russia, Belarus, and Israel, attending an international high school with people from more than 30 nationalities. Since high school, she has been passionate about two things – health and international relations. Public health became her current career choice. However, international relations has always been a part of her life, taking part in the Model United Nations and Model European Unions simulations, which sparked her interest in the EU project. She went to university in Poland and became a part of International Federation of Medical Students Association - Poland, Beta Poland, and started working on publications. Recently she started a part-time job in administration in a Hospital in Poznan. Currently, she is finishing her Bachelor's degree and applying to Masters programmes all over Europe. She wants to continue her studies specifically in Public Health Policy Planning and Finances, therefore continuing her commitment in the EU-related matters.

### Ameer Ibrahim

Ameer is from Scotland, United Kingdom. Ameer is a Masayoshi Son Fellow of the Schwarzman Scholars Program at Tsinghua University. His first postgraduate was undertaken at The University of Edinburgh, where he pursued an MSc in Entrepreneurship and Innovation. He completed his undergraduate studies at The University of Glasgow in Accountancy and Finance. Following graduation from Glasgow, he worked within the financial services sector at PwC, further developing his business acumen. During 2019, Ameer co-founded a non-profit organization in Edinburgh focused on providing students and young professionals with opportunities to attain mentorship experience in corporate governance. His was elected as Student President at Glasgow University Students' Representative Council, where he additionally served as a Vice President at the highest levels of student governance. During his tenure as Student President, he also attained experience on the Court at The University of Glasgow, the institution's governing body. Ameer has professional experience within corporate governance, which he strives to develop in his future career. As a representative on the Climate and the Environment Track, Ameer looks forward to engaging with fellow members of the Y7 Youth Forum, Delegates, and the broader Future Leaders Network to influence multilateral policymaking in combating challenges pertaining to environmental sustainability. Ameer has a strong interest in developing green accounting standards internationally, and the impact that organizations will have globally through future adoption in financial reporting. Ameer is a strong advocate of financial literacy being embedded into school curriculums, which further incorporate ESG factors in the future.

SHE/HER

### Emily Stevenson

Hi! My name's Emily, I'm 23 and from North Cornwall (UK). Being lucky enough to live on the coast all my life, witnessing human impact on the environment is something I have always been exposed to. It is for this reason, that I now wish to dedicate my life to preserving the natural world. After graduating from my marine biology degree, I co-founded the environmental NGO: 'Beach Guardian'. Aiming to engage, educate and empower against plastic pollution, Beach Guardian has organised over 250 community clean-up events, with over 15,000 volunteers. We have visited over 85 schools, engaged with over 50,000 school children and worked with some of the world's largest companies, to help them reduce their reliance on plastic, such as PepsiCo and Nissan. In 2020 we collaborated on a project with Greenpeace and Defra, raising awareness of PPE pollution. This sparked a global media campaign to reduce the spill of millions of items of discarded plastic waste. I am also currently studying my Masters degree in Conservation Science and Policy at the University of Exeter, where I am researching the role of microplastics in the spread of potential human pathogens and antimicrobial resistance in the environment. I am incredibly excited to be part of the Y7 Youth Forum and grateful for this unique opportunity to be involved in such important, international discussions.

## UK Climate and the Environment

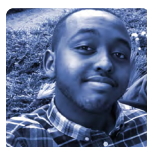

SHE/HER

### Kate Stevenson

My name is Kate Stevenson (she/her) and I am 19 years old from North Wales. With a family firmly rooted in farming, I live and breathe the countryside. When I recently moved to start my degree apprenticeship at AstraZeneca, I couldn't help but miss the green fields and fresh air, so I eventually moved back! I am honoured to bring my knowledge and unique experiences to the Climate and Environment track, as I have seen first hand the problems and the subsequent effects. Aside from my farming background, I love upcycling old objects, dabbling in graphic design and I involve myself in anything that gets the message out there that apprenticeships are a valid alternative. Since starting at AstraZeneca, I have expressed my interest in reducing waste and improving the sustainability of processes. Therefore, I will be starting a project on reducing packaging waste when ordering components. However, the Summit will multiply the impact I could have on the root source and teach me what skills are used to motivate people to think alternatively. Everyone has differing ideas on how we should tackle environmental issues, but I hope to learn how to effectively communicate my stance whilst actively listening to why people may have another perspective. This will be key to making a lasting impact. Making friendships with people from backgrounds I may not have necessarily met otherwise is a bonus; I'm known for loving a good heart-to-heart! Specifically, I'm excited about the post-summit initiative, as having industry experts at hand will transform my experiences into an active recommendation.

## UK Climate and the Environment

HE/HIM

### Mohammed-Hadi Osman

My name is Mohammed, and I am a part of the Youth Forum, focused primarily on the Climate and Environment track. I am from the UK, and am a recent Mechanical Engineering Graduate, working in the automotive field as a Logistics Engineer. I have always been passionate about environmental work, having previously worked with different national and global organisations focusing on environmental and climate relief. I am looking forward to being a part of the Y7 this year as I believe, with the UK hosting of the G7 and COP 26, we have a real chance of effecting global Climate Change and Environmental policy development. In addition, I am excited to connect and network with other passionate youth from across the globe, working with driven and like-minded individuals, contributing into the Youth Voice on discussions and decision making on the world stage. I am excited to meet, and work with you all.

**UK** Climate and the Environment

SHE/HER

**Tara Soares**

I currently work as a Ministry of Defence Civil Servant, having joined through the apprenticeship scheme over five years ago. I have worked across a wide range of exciting roles, including two Operational tours in the Middle East as part of the NATO Resolute Support Mission. I am also currently studying towards my CIMA Accountancy qualification. Over the past 10 years, I have engaged in a number of volunteering activities – including working with Domestic Violence victims, mentoring at youth clubs, and delivering motivational presentations in schools to help kids understand the potential career routes available to them. Why am I excited to take part in the Y7 Youth forum? I have met a lot of highly intelligent and innovative people during my career who have brilliant ideas for growth, but many do not feel that their voice is heard. I want to use this opportunity to drive change and encourage these individuals to speak up. I want to promote a diverse range of views so that political decisions made are as inclusive and fair as possible. The Y7 Forum will provide me with the opportunity to inspire young people and give them the confidence to strive for a better future.

**UK** Digital and Technology

HE/HIM

**Ali Humayun**

Ali is a recent MSc Digital Humanities graduate from University College London and is currently working as an Editor at an online sports publication. Prior to his Masters degree, Ali studied history at the University of Warwick, where he began mentoring school learners alongside his studies. He also spent seven weeks volunteering as a teaching assistant in Cape Town, South Africa. Ali possesses a keen interest in improving educational outcomes for underprivileged young people and increasing social mobility, with a focus on addressing the digital divide on both a local and global scale. He hopes to use the Y7 Youth Forum as an opportunity to represent the concerns and needs of young people, particularly those from marginalised groups in urban communities.

**UK** Digital and Technology

HE/HIM

**Blessing Maregere**

Blessing is a Teacher of Entrepreneurship and Marketing at Leeds City College and a PhD researcher in Education technology at the University of Bolton. Blessing's career journey began when he completed his GCSE exams, he applied for over 40 jobs, but no one got back him. This led to Blessing to a launch commercial contract cleaning business. After six months of trading, Essential Cleaning company employed six full-time employees and managed several cleaning contracts across Leeds, ranging from University student halls and law firms in Leeds. After a few years of trading, Blessing sold the business for profit and invested some of the profits to launch a youth-led social enterprise, Bright Futures Enterprise. During the 2010 Global Entrepreneurship Week, Bright Futures Enterprise launched with a partnership youth event with Unltd where twenty young people were invited to one day Youth Entrepreneurship conference. The young people learned about starting a business, and they pitched their business idea for funding. During the seven years, Bright Futures Enterprise worked with over 100,000 young people supporting them to develop enterprise and employability skills. Blessing invested in an Estate Agency business which he ran for two years; however, the company did not succeed. This led to Blessing training to be a teacher so that he can inspire and educate young people to be successful in business. Blessing has worked in the education sector for over ten years. Blessing is passionate about technology and how educators can apply technology to enhance learning experiences.

**UK** Digital and Technology

SHE/HER

**Julia Cooke**

My name is Julia Cooke (she/her) and I'm a member of the Y7 Youth Forum, specifically on the Digital and Technology track. I'm a Senior Policy Officer at the Information Commissioner's Office and have previously worked for the UK Civil Service through the Digital, Data and Technology Fast Stream graduate programme. My work focuses on advising central government departments on upholding information rights legislation such as data protection law, particularly in relation to innovative uses of data and technology in an increasingly digital world. I'm Irish and normally live in South London but due to Covid-19 travel restrictions in the UK, I'm currently in Belfast, Northern Ireland. In my spare time, I can usually be found cooking, reading or doing yoga and am very excited to travel again when it's safe to do so. Through the Y7 2021, I'm looking forward to connecting with a diverse network of young people in order to promote inclusive youth-centric recommendations. With the Covid-19 pandemic exacerbating the digital divide, especially for young and vulnerable individuals, I want to advocate for policies that support the accessible, inclusive, widespread adoption of digital tools and technology whilst also empowering citizens and respecting their privacy. I hope to utilise both my professional and lived experience in order to support the delegates whilst gaining international negotiation skills and furthering my intercultural understanding.

**UK Digital and Technology**

SHE/HER

**Melissa Tranfield**

Since the start of her career, Melissa has been dedicated to creating a better and fairer society for all, through appropriate use of technology, updated and high quality education and training, and adequate policy formation. She is from Isleworth, West London, and enjoys coding, particularly mobile development, reading, writing about FinTech, and hiking. Prompted by the realisation of how a lack of exposure to opportunities, particularly in STEM fields, and insufficient support can create underachievement in the lives of those who should be able to fulfil their full potential, Melissa is resolved to make these opportunities available to those who need them most, and to improve social mobility for all. She considers herself very fortunate to be in the incredibly fascinating and challenging position of learning software development while being able to work on interesting projects with talented individuals, and now to be part of the Y7 Youth Forum to create real change with skilled and experienced young people. To restructure and improve society after the COVID pandemic, she plans to focus on ensuring equal opportunities are available in technology for young people to learn new skills and rebuild their lives.

**UK Digital and Technology**

HE/HIM

**Peter Rigg**

I am an experienced Scottish human rights defender with an interest in advancing youth leadership in international affairs with a fresh outlook on how creative and comprehensive co-operation and discussion can complement shared fundamental principles such as human rights, democracy, and the rule of law. I currently contribute a youth perspective towards international policy discussions as a community member of Chatham House's Common Futures Conversations initiative and spoke at the 2020 European Forum Alpbach on the role of youth in 'Designing the Future of Sustainable Development'. I have dedicated myself to acquiring unique, first-hand experience of how governments and decision-makers more generally can engage with young people through serving one elected term as the 2017-2019 Member of the Scottish Youth Parliament for the Dunfermline constituency and served as the Scottish Youth Parliament's 2018-2019 Justice Committee Convener, which had me speaking before the Scottish Parliament's Justice Committee and advising the Scottish Cabinet Secretary for Justice on what the researched views of young people have been on the issue of Scotland incorporating into domestic law the UN Convention on the Rights of the Child. Additionally, I was selected by as reserve representative for the Scottish Youth Parliament on the Council of Europe's 2020-2021 Advisory Council on Youth; I have also assisted consultations in Scotland for the Y7/Y20 UK delegations and bring an international experience of engaging with the UN system on behalf of young people through helping to prepare a Joint Shadow Report to the UN Committee Against Torture.

**UK Economy**

SHE/HER

**Hannah Walton**

I am 21, from Worcestershire. Recently founding the One/Third Project that works with students to improve their wellbeing and inspire their potential, my focus is to create a pathway to access education and individualised support across the nation. Years of lived-experience in this area has given me the drive to turn my passions into solutions and become a prominent voice for change for current and future generations. I am excited to participate in the first y7 Youth Forum and develop my understanding of policy in a practical setting, to influence real change.

**UK Economy**

SHE/HER

**Naomi Lea**

Naomi is a Welsh 22 year-old volunteer, activist and campaigner around a number of issues including mental health, poverty and youth voice. Growing up in rural North Wales in poverty and as a young carer, her experiences have led her to become incredibly passionate about ensuring every young person has the opportunity to fulfil their potential. She has a number of current voluntary roles including a being the Welsh representative for the #iwill Partnership, a Trustee for Platform, the mental health and social change charity as well as being a Young Ambassador for the End Child Poverty Coalition, amongst other things. In 2016 she was awarded the Prime Minister's Points of Light award for her social action. At the beginning of 2020 she founded her own youth-led project to tackle youth loneliness and empower young people, Project Hope. She has found that this process that has been a huge learning opportunity about what is possible when you let young people make decisions. She is currently working as a Youth Volunteering Support Officer for WCVA, ensuring that high quality resources are available to organisations involving young volunteers, having previously worked with young people in a homelessness prevention project based in schools with Llamau. She is excited to be taking part in the Y7 Youth Forum to ensure that the voices of those who aren't usually heard are represented at the highest levels. She hopes to bring her passion for high quality youth engagement to the Y7 to ensure we engage as many young people as possible in the process of shaping policy. As part of the Economy track she will also bring her own experiences of poverty.

UK Economy

## Naqeeb Saide

My name is Naqeeb Saide originally from Afghanistan moved to UK on April 2016. I am a Hummingbird Young Leader Graduate and Trustee for Safe Passage. I am also a Coach for Brighton Table Tennis Club, a Co-Founder of Worthing Ping, Actor for Borderline, and a multi award winning campaigner (including Parliament's 'Campaigner of the Year 2019'). I am excited to be part of the Y7 Youth Forum because I am passionate about representing voices of young refugees. I feel that this would be a great opportunity for me to be able to offer the perspectives of a young refugee to help shape policy. Having fled Afghanistan in 2016 and made my home in the UK, I have focused my time on trying to bring about change for other young people, with the hope that they will not have to go through the hardship that I faced.

UK Economy

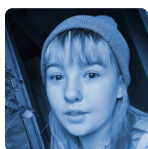

HE/HIM

## Rohan Rastogi

I'm Rohan Rastogi. I'm an Economics student at the University of Warwick but I'm originally from a town called Kings Lynn in Norfolk. I'm excited to take part in the Y7 Youth Forum because it's an opportunity to ensure that the Y7 communicate fully reflects the diversity of British youth. I want to bring my experiences of growing up in Norfolk to the summit through the Economy policy track. I'm passionate about making sure politics is representative of young people because I believe young voices are often absent in national decisions. My experiences from being an ambassador for SEO London have given me the tools and knowledge to be able to stand up for diverse communities. I'm particularly enthusiastic about empowering rural communities in my role in the Y7 Youth Forum. I also want to assist the delegates and help them in achieving the best Y7 summit results possible. I hope the Y7 and G7 summits being held in the UK will encourage more young people to become engaged in achieving positive change. Young people are the future and the Y7 is a great opportunity to shape the world we want to live in. But everyone, regardless of background or income, should feel like they have the opportunity to influence the destiny of their country.

UK Economy

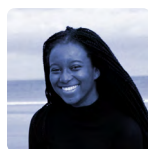

THEY/THEM

## Tillae Fairbairn

I'm Tillae Fairbairn, a Non-Binary, disabled, activist and advocate from Teesside, North East England. I come from a really humble background, growing up lower class and experiencing a lot of the harshness of the world in many aspects of life. I now use the experiences from my rough childhood and adolescent years to help and inspire others. My ultimate goal is to turn all the negative experiences from my life, into positive change for other people. I'm a panel member for the Young Womens Trust, a opportunist who takes every chance for growth I can and I'm a community campaigner. I'm excited to collaborate with other young people and work at helping shape policies on a larger scale than I'm used to. I'm used to campaigning but being part of the Y7 process means not having to fight to be heard, there's already a possibility to be listened to. I love all charity work I engage in, and I love campaigning for change but it's a really valuable experience to see this from another perspective.

UK Health

SHE/HER

## Alice Olomola

My name is Alice Olomola and I have been selected to be part of the Y7 2021 Youth Forum for the Health Track. I am a British-born Nigerian currently living in Essex, my preferred pronouns are she/her and I am a recent graduate from the University of St. Andrews. For over seven years, I have persistently campaigned and advocated for the end of Violence Against Black Women and Girls, FGM, Children's rights, Black students' health and wellbeing within education and for BAME recognition within institutions. I am associated with the following organizations: Winner of Black Impact's Social Activist Award, Tuwezeshe Akina Dada, Forward UK, Forum for African, African-Caribbean and Asian Women in Politics, University of St. Andrews ACS and The BAME Students' Network St. Andrews. I am excited to work in a Forum of hard-working and goal-oriented individuals who strive to make positive and effective impact for all of society, and places young people at the heart of everything that they do. I will be able to learn the knowledge needed for effective leadership and be in a community of young leaders who share the same values as I do. Also, I will be able to learn and grow in an environment that enables me to be challenged by the different skillsets and experiences of my peers. Despite the COVID-19 pandemic, youth leaders have shown strength and resilience in striving to hold the G7 accountable in ensuring that young people are not left out of important decision making and its results. I am thrilled to work in a community of people that has shown their passion and determination for the change needed for a better society. This group is a pure example of how youth leaders thrive in adversity, to achieving both its long-term and short-term goals.

UK Health

SHE/HER

## Jeevan Ravindran

Jeevan is a human rights journalist based in London who has worked primarily in a freelance capacity but also for Reuters news agency and for the press freedom organization Reporters Without Borders. She has written for the BBC, ELLE, Popula and World Politics Review on issues including the legalization of abortion in Argentina, the Sri Lankan Tamil community's fight for recognition of their genocide, racism against Black communities in the UK, and the homelessness crisis. Jeevan tries to always put marginalized communities at the centre of her stories and amplify their voices whenever she can. Jeevan became an Amnesty International youth group member in 2012 at the age of 14, and then began leading the group at the age of 17. She hosted awareness evenings, fundraisers, directed three plays, and created a youth human rights journal. The group was invited to speak at the House of Commons and the House of Lords through the Universal Peace Federation. They also campaigned on LGBTQ+ rights, reproductive rights, and refugee rights and were ultimately named one of the top 3 youth campaign groups in the UK at the Amnesty Youth Awards. Jeevan led her university's homelessness campaign, fundraising and raising awareness for rough sleepers in Oxford. Jeevan is passionate about women's rights issues, racial and economic equality and homelessness, and believes these should be placed at the centre of health-related legislation. As part of the Y7 forum, Jeevan hopes to be able to enact change for homeless communities and other marginalised groups.

UK Health

## Maciej Manka

Maciej Manka is passionate about innovating healthcare with science - so much to make it the primary goal of his career. Aged 17 in Poland, he replicated a novel artificial organ technology originating from Harvard University, proposing alterations to make it cheaper and more accessible, subsequently advocating for its adoption in Polish national media and at the final of EU Contest for Young Scientists. Having won Sarmatian Bursary to study Neuroscience at UCL, he focused on developing his scientific and leadership skills simultaneously, by carrying out stroke survivor MRI research, identifying new patterns underlying preclinical Huntington's Disease, but also serving as President of UCL Neuroscience Society and Federation of Polish Students in the UK. Following on the spirit of innovating healthcare through scientific advancement, he identified a need for a new diagnostic task in audiology and led an international clinical project validating a promising sound localization diagnostic technology at World Hearing Centre. At the moment, he works on global clinical trial management in AstraZeneca, broadening his understanding of the industry and delivering novel medicines to the patients.

UK Health

SHE/HER

## Martina Glada

I am a Dr. Martina Glada holding a Bachelor degree in Medicine and Bachelor degree in Surgery (M.B.B.S). I am based in South East Sussex and I am currently pursuing my career in clinical medicine. I am proudly Coptic Sudanese in origin who have always been very passionate about serving the community in promotion of health education and support with easier utilization of healthcare services. My goal is to create a tangible positive change in healthcare systems around the world by drawing attention of the heads of government to critical but often overlooked areas. Having my voice heard, I will be sharing my personal experience of working as a young doctor in Africa during outbreaks of diseases looking forward to shape new political and economic policies that will guarantee prevention of spread of diseases and therefore its progression into pandemics. The Y7 Youth Forum is an outstanding opportunity for me to meet other leaders and learn from their personal experiences widening my perspective. Not only that, but it is going to provide me with the necessary skills to use my potential and knowledge to create change and fulfil my purpose.

UK Health

HE/HIM

## Richard Salter

My name is Richard (he/him) and I am part of the UK Youth Forum in the Health Track. In my day job I am a Senior Manager and Coach at the LEGO Group, but my free time and passion is spent volunteering for health through St John Ambulance, which I have done for the past 9 years. In recent times I have been volunteering as part of the COVID-19 effort in hospitals ranging from the Intensive Care Unit set up at our temporary Nightingale hospital in London, to Moorfield Eye Hospital. I have volunteered on ambulances responding to 999 calls and am currently volunteering as a COVID-19 vaccinator. My other volunteering role in St John is leading on youth external awards and accreditation including the DofE award and vocational qualifications for cadets aged 10-18 all across England. Working closely with these young people I see first-hand the pressures they are facing including mental health, wellbeing and identity. My passion for health started as I grew up as a young carer for my mum suffering from Multiple Sclerosis, she sadly passed away 6 years ago, but I am keen to make the world a better place based on my experiences.
