

# Oh Great God [A]

[Gatekeepers Album Version: Gatekeepers] by Gatekeepers

## CHORUS

**A**                                **E**                                **B**  
Oh great God you gave us life when  
**A**                                **E**                                **B**  
All we knew was death and darkness  
**A**                                **E**                                **B**                                **A**  
Your great love is hope to hopeless souls

## INSTRUMENTAL

**C#m A E**

## VERSE 1

**C#m A**                                **E**  
You walked upon the earth  
              **G#m**  
Jesus God and man the same  
Your sandals shift the dirt  
In every step Your purpose made  
To live a perfect life  
While ours are marked with sin  
You came to pay the price  
We could never earn it

## CHORUS

## VERSE 2

You died upon a tree  
A crown of thorns upon Your head  
We mocked "look at this 'king'"  
Even then You paid our debt  
They took Your body down  
Carried You into the grave  
When all hope was turned to doubt  
Sin and death You overcame

## CHORUS

## BRIDGE

**A**                                **E**                                **B**  
Freed from our sin now we'll sing Your praises  
**A**                                **E**                                **B**  
Tell the earth what Your great name is  
**A**                                **E**                                **B**  
Jesus, Lord of all, saved us from our fall

## CHORUS
