

Short Description of Bills Used for Assembly Ratings
(The first 18 Bills passed both houses; the last 7 passed the Assembly only)

1. A.529-Destito/S.5923-Parker: This bill provides for a civil remedy for victims of bias-related violence or intimidations. CPNYS believes discrimination against every person, religion, race, gender, ancestry, age, disability or sexual orientation is unacceptable in our society, however, the language in this bill is extremely vague and the burden of proof will fall upon the defendant making him guilty until he proves himself innocent the exact opposite of our justice system, therefore CPNYS opposed this bill.
2. A.1470-Wright/S2311-Savino: This bill provides domestic workers with a Domestic Workers' Bill of Rights. CPNYS believes that the contract with the individual family and the worker should be a contract between them and not subject to the labor laws designed for companies and the feasibility and practicality of collective bargaining for domestic workers is a ploy for more union representation, therefore CPNYS opposed this bill.
3. A.2374-Lancman/S2613-Klein: The bill enacts the "jury pool fair representation act" requiring the recording of demographic data on jury polls to determine whether jury pools in the state represent a fair cross-section of the community. CPNYS believes this will eventually lead to bureaucratic bungling with convictions being dismissed on the technicality of not having a fair cross-section on the jury and therefore opposed the bill.
4. A.2565-Glick/S.2664-Duane: The bill sought to provide that certain persons living with HIV or AIDS shall not be required to pay more than 30% of the household income towards shelter costs. CPNYS is consistently opposed to unfunded mandates and legislation that imposes a financial burden on localities. This bill did both, therefore CPNYS opposed it.
5. A.3065-Benjamin/S.3601-Parker: This bill seeks to require that certain day care centers provide six months notice before it intends to close. In today's society, we understand how the immediate closing of a day care center will impact the lives of those relying on it, however, it should not be mandated to provide six months notice, especially when the municipality owns the day care center. CPNYS considers this legislation another unfunded mandate on local government.
6. A.3421-Sweeney/S4958-Thompson: This bill seeks to establish that the Dept. of Environmental Conservation create a method for individuals and businesses to calculate their greenhouse gas emissions. The cost to implement this legislation is unwarranted and unnecessary and even DEC recommended that this bill be vetoed. CPNYS agrees.
7. A.3661-O'Donnell/S.1987-Duane: All students are protected by *Project Save*, this bill seeks to create a special class of students, and we firmly believe all students need equal protection from all whom deem to bully or harm others.
8. A.5652-Rosenthal/S.1523-Duane: CPNYS is a strong proponent of traditional marriage and believes that the best environment for adopted children is in a home that supports traditional marriage.
9. A.7917-Kavanagh/S.5292-Squadron: This bill requires exercising due care in the operation of a motor vehicle to avoid colliding with any bicyclist, pedestrian or domestic animal. CPNYS believes this bill is redundant and unnecessary as current law covers traffic infractions and penalties for those who do not exercise due care.
10. A.8396-Gottfried/S.5620-Duane: CPNYS is opposed to liberalizing the syringe exchange program by allowing those who use the program to not be criminally liable for possessing syringes with drug residue.
11. A.9703-Budget/S.6603-Budget: CPNYS is opposed to taxpayer funded abortions, just one of the components in this budget bill.
12. A.9710-Budget/S.6610-Budget: This budget bill is the revenue producer that increases taxes for New Yorkers

Short Description of Bills Used for Assembly Ratings
(The first 18 Bills passed both houses; the last 7 passed the Assembly only)

13. A.10257-Gianaris/S.8379-Schneiderman: This bill broadens the scope of prevailing wage requirements and establishes criminal penalties for violations, thereby increasing the cost of doing business in New York State. CPNYS opposes this bill.
14. A.11104-Rules/S.7847-Rules: This bill extends until March 2011 the authority to issue bonds to fund capital spending. CPNYS opposes the constant annual authorization of issuing bonds that continue to put all New Yorkers deeper in debt.
15. A.11177-Jeffries/S.7945-Adams: This bill prohibits the recording of certain identifying information of a person stopped and questioned by police and subsequently released. CPNYS believes this will hinder police investigations thereby putting the public at risk.
16. A.11310-Rules/S.7990-Oppenheimer: CPNYS is a strong support of charter schools.
17. A.11515-Rules/S.8285-Rules: This bill contains more revenue enhancers that allow for the out of control spending taking place in New York State, including the increase in the tax on cigarettes which ultimately helps fund terrorism.
18. A.41011-Rules/S.67011-Rules: CPNYS opposes any bill that ensures continuation of appropriations to fund services and expenses in any area without making some attempt to decrease a portion of the spending
19. A.1671-Wright: CPNYS opposes any bill that inhibits the police from doing their job.
20. A.2007-Gottfried: CPNYS believes the free market should be the only area that dictates what the cost of any item, including prescription drugs, should be.
21. A.2761-Sweeney: CPNYS opposes the use of cryopreserved embryos/gametes for stem cell research.
22. A.4272-Brodsky: The bill seeks to grant private citizens broad authority to commence civil judicial actions under the Environmental Conservative Law. This vague law would only increase frivolous lawsuits under the guise of protecting the environment.
23. A.5710-Duane: The bill seeks to prohibit discrimination based on gender identity or expression. CPNYS believes that any discrimination is wrong and that discrimination can be prosecuted under the many laws already enacted.
24. A.6468-Schimel: This bill seeks to require semiautomatic pistols to be capable of microstamping ammunition. This costly endeavor does nothing to help solve crimes and helps to further erode our 2nd Amendment rights.
25. A.10894-Kavanagh: CPNYS opposes the additional layer of bureaucracy that ultimately also erodes our 2nd Amendment rights.
