

Guidelines for successful registration and class participation:

The ECPCA volunteer programming group spend many hours planning classes. Please respect the guidelines for a pleasant and productive environment and to ensure participants maximize their recreational experiences.

- Be patient as the online system may be slow during registration.
- If an unavoidable circumstance or emergency forces parents to bring children to adult fitness classes, the children are not permitted to play, sit, or walk the hallways unsupervised by an adult over 18. Please ensure appropriate supervision is arranged for children or make alternate arrangements for that evening. This is in accordance to the rental agreement between the School Board and the Renter (community association).
- For safety reasons, adult fitness classes are for adults only as stated 16+ or 18+.
- To accommodate children during adult fitness times, some children's classes are held at the same time/school as the adult fitness classes. This has been organized to provide a class for your child while you participate in adult fitness classes.
- Classes fill up fast and there are no wait lists. Please have an alternate plan in case the class you want is full.
- Classes are continually changing. Review the online schedule prior to registering.
- The community association strives to operate respectfully in all matters. People acting in disrespectful or threatening ways to others or to property will be asked to leave the class or venue.
- Registrations in one class are not transferable to other classes or to other people.
- Check that all family members' birthdates are correct. We need this info.
- Occasionally for children's classes, a parent may be required to sign up for one night of supervision. Our facility contract requires all classes to have an adult over the age of 18 present.
- Only registered participants are allowed to participate and siblings are not allowed to "join" in on the class.
- Membership fees are valid from August 1st to July 31st of the following year. If you have a membership renewal issue, please email us with the information.
- **NO REFUNDS** are issued unless the class is cancelled.
- Community Associations are fortunate enough to be able to use the school facilities for no charge during the weekdays. This allows our community residents to enjoy low-cost, programming. Programs cannot be held on statutory holidays or dates and school functions have priority over community programming rentals, therefore, not all missed classes can be made up.
- Participation in East College Park Community Association fitness programming is at your own risk.
