TO THE PAST
THE PRESENT
AND
THE FUTURE
OF
A. H. S.

1918-19
Reviewing the School Year

On September 9, the A. H. S. opened with three changes in the faculty: Miss Haffner succeeding Miss Richardson, Mr. Darnall being in service was succeeded by Mr. Romig and Miss Sill followed Miss Huffington in charge of the Domestic Art and Science. Mr. Romig was secured for the position of superintendent of schools.

The enrollment was about fifty-five, the same as last year. The classes were just well started when the influenza epidemic struck the community and the school was closed for five weeks. Beginning November 13, school was again in session until December 13, when Mr. Sugg, together with several high school and grade teachers, became ill with the flu. Thereupon, the Board closed school again until December 30. On this date school opened and has been in continuous session.

On November 15 the basketball season started with a game at Stanford. Following this game, the A. H. S. had to cancel six games because of the flu. On March 1 the basketball season closed with the tournament at Decatur. Thus ended a very successful year. The athletic spirit of the school is shown by the organization of the Girls’ Basketball Club with a membership of twenty. This was the first team since 1914. The good results obtained were due to the coaching and efforts of Miss Sill. Although the State High School Athletic Association forbids girls’ teams participating in interscholastic sports, the girls expect to play town teams this coming year, and they expect great competition.

In January Mr. Romig resigned as superintendent, and Mr. Darnall, who had received his discharge from service in December, was secured as superintendent for the remainder of the year.

The first semester was lacking in social life because of the flu, but the second semester opened with a vam; the Seniors gave a Backwards War Party with a decided success. The Sophomores joined the procession and came on a few weeks later with a Masquerade. During the last two weeks of school there will be hikes, moonlight picnics, and general good time parties. Among the innovations introduced this year, was the formation of a chess club by Mr. Sugg. A tennis club has been organized for the remainder of the school year and it will extend through the summer.

The Seniors are not seven, weak in numbers but strong in spirit. This year the Baccalaureate will be held at the Methodist Church, Sunday evening, May 25, with Mr. Ward as speaker. Commencement on Thursday, May 29, will be in the Christian Church. Dr. Walter Aitken of Urbana, will deliver the address, “Colored Spectacles.” School for the Seniors will end one week earlier than for the rest of the school. This time is to be spent in finishing old work, in having social functions, and sprucing up for the Commencement.
At the beginning of the present school year, the enrollment of the high school was but fifty-five; five years ago the A. H. S. enrolled ninety-six. The class of '14 had twenty-two graduates, the class of '19 but seven. This condition is partially due to the failure of country boys and girls in continuing their education. It is now up to the Board of Education, the Faculty, the Pupils, and the Alumni of the A. H. S. to build up the enrollment of the school. The keynote of the high school atmosphere is found throughout this annual, and its chief objective is to interest the country people in the A. H. S. We feel that the country people do not realize the advantages of having a school like A. H. S., and we wish to emphasize the advantages of Atlanta over neighboring schools. The present indications for our school next year are most excellent, and we hope to see more enrolled than ever before. The war has been the greatest obstacle to the enlargement of the school, and now that it is over, we hope to make next year a great year in the annals of A. H. S. with a large enrollment to retain the true spirit of old Atlanta High.

J. U. P., '19.
THE HOME ECONOMICS DEPARTMENT

The Home Economics Department was installed four years ago, but since has been changed to meet the requirements of the Smith-Hughes Bill, a bill passed by Congress for the purpose of increasing the number of girls taking sewing and cooking. It is an excellent showing for any school to meet the requirements of this bill, and the Atlanta High School has been able to meet these requirements.

Next year in addition to the courses taught this year, there will be courses in home-making and serving. An excellent course in domestic art or sewing is given. In this course, a complete outfit of underwear, a gingham, a voile, and a child’s dress with many other articles of clothing are made. Next year it is hoped to give a full course in designing. These changes will make the Atlanta High School one of the best small schools in the state.

MANUAL TRAINING

In 1915 the Board of Education with the assistance of Mr. Shireck introduced manual training in the Atlanta Public Schools. At that time the shop was equipped with tools and benches more completely than schools the size of A. H. S. usually are. Since then, a jointer, band-saw, and a grinder have been bought, making the school one of the best equipped shops in the state. Since Mr. Sugg has taken charge of the work many additional improvements in the way of tools and lockers have been added. In another year, a lathe will be added, making without doubt the best equipped shop in this section of the state.

Atlanta offers three years of work in the manual training department, two of regular manual training, and one year of mechanical and architectural drawing. Any boy who is considering an engineering course can secure the best of preparation in manual training, drawing, and mathematics as the basis of his course in the A. H. S. Our shop is an unusual opportunity for the boys interested in construction of useful articles in wood.
To Eighth Grade Graduates

You have now finished the work of the 8th grade and will now be considering what to do next. Your grade work has been but a preparation, and you are not yet fully prepared. Your next step is to enter a recognized high school. The Atlanta High School, the oldest and best in Logan County, is the nearest to you. It is your duty to attend.

One of the worst things encountered by our Government during the war was the ignorance of many of our soldiers. The man who received the most from the Government in the way of promotion, because he was the most capable, was the high school graduate. The Government is offering both high school and a college education to those who were disabled in the war, because it realizes the necessity of education in order to compete with other countries after the war. DO YOU REALIZE THE VALUE OF A HIGH SCHOOL EDUCATION TO YOURSELF AND TO YOUR COUNTRY? In dollars and cents it is worth much, $9.05 for every day of schooling. This was before the war and now it will be worth much more. This computation of the value of schooling to YOU is the result of a government investigation and not an idle guess.

If you are to be a farmer on the best and most expensive farm land in the United States, Logan and McLean Counties, you must know how to get the most from the land; and this you can only do by knowing what every graduate from the Agricultural College of the University of Illinois knows. In order to attend the University, you must know what our high school graduates know, and the best school for this is the ATLANTA HIGH SCHOOL. If you go to high school, you will study botany, biology, chemistry, and physics, and you will understand what is meant by acid soil; you will learn how to graft your own fruit trees, and why certain plants do not grow well for YOU, but do for others. You will learn to handle tools properly in the school manual training shop. In brief, you will be very well prepared to do your part well.

For the girls, the Atlanta High School has a well equipped sewing-room and kitchen. If you have not learned to sew and to make your own clothing, our Home Economics Department can teach you. You can prepare for college, or for normal and then for teaching, or else you can become better prepared to take a business course. A girl with a high school education makes a better business woman than one without the education.

The teachers of the Atlanta High School are graduates of the best colleges and universities and are well prepared to teach you and to advise you what to do and to take in high school and in college.

In another section of this announcement you will see pictures of our workshop, our kitchen, our students, our building, and our basketball team. Atlanta has played Bloomington, Decatur, Springfield, Lincoln, and Normal, and has more than held her own. The Atlanta High School offers you as much as the larger high schools and more than the other small schools.

You are invited to visit the school at any time and to become acquainted with what we do and what you may do. It is your duty and your business to make the best of an opportunity. THE ATLANTA HIGH SCHOOL IS THE BIGGEST AND BEST OPPORTUNITY OPEN TO THE BOYS AND GIRLS OF THIS PART OF LOGAN AND McLEAN COUNTIES.

Sincerely yours, JAMES D. BARNALL.

**REQUIRED SUBJECTS**

- Two years of algebra and geometry.
- Four years English.
- Physics or Chemistry required.
- General Science required.
- Two years history, Modern, U. S., and Civics.
- One year of manual training or household economics.
- No credit for less than one year of language.
- Music (singing) twenty minutes three days per week.
- Drawing optional.
- *Required for course outlined.*
The basketball season of the past year (1918-19) was the most successful that the school has ever had. Owing to the Spanish influenza epidemic the boys got a late start and several of the games had to be cancelled. Nevertheless, the squad worked hard and succeeded in winning most of the games played.

The team was composed of Captain Taylor and Paul Stroud, four year "A" men, Leland Dunham, Paul Houghton, and Harold Squier, three year men, Byron James, a two year man, and Lyman James and Edgar Houghton, who played their first year. Four of the five regulars of the 1918 team furnished the background of this year's squad. Squier and Houghton took their turns at playing the fifth position. Lyman James and Edgar Houghton were always dependable substitutes and got into three or four of the games.

Because of the success of the team our games were all very well patronized, and old Murphy Hall fairly shook her sides at the shouts of victory from Atlanta's loyal rooters. On several of the out-of-town trips the team was accompanied by delegations of Atlanta rooters. Perhaps the most amusing game was the East Peoria game played here. The final score of this game was 70-0. After piling up a big score Leland and Paul, the scoring forwards, were pulled out and the midget forwards, Lyman and Squier, were sent in. This did not seem to hinder the scoring in the least, as it continued to rise until the final seventy was reached. Louie was bewildered (?) several times and whaled away at the opponents' goal. It happened that Mr. James was home at that time and Bud performed for him in great fashion, netting two or six ringers to our score.

We felt quite puffed up last year when we succeeded in taking Lexington into camp after they had picked us earlier in the season to a tune of 40 to 18, but we feel even more proud this year. They had just beaten Bloomington badly on the Bloomington floor when we went to Lexington. Every school in the country that was watching the papers expected to see us get a good drubbing. We surprised them, for we took Calhoun's mighty five on their own floor 28 to 24. They fought Coach Sugg's quintet to a finish, tried climbing the wall under the goals for shots, made two cushion shots out of the ceiling and wall, resorted to trick plays, an' everything— even had a loose referee, which gave the odds to them on far heavier players than we had.
The very next Friday night they journeyed down into Logan County for sweet revenge—and we thought that they would get it for at that time we had two of the best rea-
terns over because of ineligibility of grades. The loyal high school Rooters and our usual
large bunch of interested business men who backed the team, came to our rescue and
put the necessary pep into the fellows and they came out ahead again, 24 to 12.

And say, a whole book could be written about the Lincoln games. Lincoln has
long been a hated rival of Atlanta (and, with clean, sportsmanlike rivalry, we hope they
will always remain such). The first game was played at Lincoln, and it was a
happy bunch of backers that boarded the southbound C. & A. to accompany the team
into the county seat. Lincoln played a great game, mostly defensive (for the referee
selected was extremely shortsighted) and just a great deal of holding, etc., seemed the
order of the day. Lincoln fumbled in practically every move they made. This was
not due to dirty play; we think, so much as it was to a lack of a good coach. They
were unfortunate, indeed, in not having the services of a good coach, for they had
real good material. County Superintendent Lukeham, who is a great favorite of the At-
tlanta High School, did not know whether to root for Lincoln or for Atlanta, so he did
his best for both teams. Another noticeable feature of this game was the fair treat-
ment of the Lincoln rooters. In the past the rivalry has become so intense that there
has been marked evidence on the part of Lincoln to get rather personal. This seems
to have become a thing of the past and now there is the clean sportsmanship that
should go along with all branches of high school athletics. February 19 gave Lincoln
her revenge, however, for the three touchdowns that she has received in the past two
years, happened that two of the boys were again ineligible, and this time the team
was so weakened that Lincoln went through with the long end of a 21 to 14 score.

The first real hard game of the season was with Bloomington, and was played in
the big Bloomington High School gym on the afternoon of December 7th. The team
started the game by leading off with a ringer by Strood and Dunham in the first two
minutes of play, and Atlanta succeeded in staying ahead until the very last minute of
play, when Goelder scored two goals in succession. Bloomington won the game over
A. H. S. 21 to 18. Decatur and Springfield were two other mighty foes that were
scheduled this year. Springfield played here December 37, and Sterneman, the little
Irish guard, won the 29 to 11 game with five long shots clearly across the Murph Hall
door. He certainly was death on the long shots. Decatur beat the maroon and white
February 7 on their floor 37 to 20. We feel justly proud of this score, although we
did not win the game, because this is the lowest score that Decatur was held to on her
own floor this season with but one exception.

Decatur found that she had a very formidable foe in A. H. S. and she was not at
all sure of the tournament when it was learned that Atlanta and Decatur had paired
for the first game of the series held at Millikin gymnasium. Coach Sugg had prepared
several excellent plays for their particular style of play and had the team grouped in
pretty good shape for the final contest. Atlanta made 11 points in the first half,
while the opponents had a little better of it with 13 points. The whole team was
goes like clock work in the first half, but two goals and a free throw in the first three
minutes of the second half completely amazed the boys and they went entirely to
pieces. From then on it was all Decatur, the game ending 39 to 12.

To show the appreciation of their good work the boys were entertained several
times at the last of the season. Miss Sill's Domestic Science class gave a four course
dinner to the boys and their coach at the end of the season. It was certainly a very
fine dinner and they all enjoyed it very much. Coach and Mrs. Sugg later entertained
the former's "fast team" at their home. Light refreshments were served at the end of
a most enjoyable evening and "the Suggs" were voted splendid entertainers. Mr. and
Mrs. Richard Burton also entertained the boys with a dinner at the close of the season,
which was highly appreciated by all.

At a meeting of the Athletic Association in the early part of April, the treasurer
reported a surplus of $150 in the treasury. The association immediately voted awar-
ters to the seven members of the first squad for their splendid record, and as an appre-
ciation of the way in which they took the boys through the season, they voted a sweater
to Coach Sugg. The sweaters were presented at a special assembly meeting the first
week in May.

Atlanta High School's chances for a fast team next year are pretty good. Dun-
ham, Byrom and Lyman James, and Edgar Houghten of this year's squad will be
eligible to play next year, and with several good country fellows signifying their intention of entering school next fall, there should be a real good team representing A. H. S. during 1919-20. It is to be regretted that Mr. Sugg will not be here next year to coach the team, for it was largely due to his untiring efforts that Atlanta took a place beside the very best teams in the country this year. We are hoping that the Board of Education will be able to engage a good man to take up the work that he has left in such a good condition.

R. B. ’19.

The School Service Flag

88 STARS
2 STARS OF GOLD

The Atlanta High School was well represented on the battlefields of France and throughout the camps in the United States. Our boys belonged to the divisions that were in the thickest of the fight, and they proved themselves to be the very best of fighters. Several have already returned and have brought home to us the living incidents of the World War. One of our boys, Bert Grosham, fell in France, making the supreme sacrifice, and the second, Frank Harnsworth, died in camp while receiving his training preparatory to going over. We are mighty proud to have had almost a hundred from the school in the service. Following is a list of the boys who were in the service:

Adams, Robert
Adcock, Fred
Applegate, Allen
Atchison, Paul
Barr, Russell
Becker, Allan
Butler, Lotto
Bishop, Virgil
Botkin, Jesse

EDITORIALS, NOTES, ETC.

At the recent election of members of the Board of Education, Dr. Brock succeeded himself as president and Mr. M. E. Stroud was again made secretary. Mr. King retired from the Board and Dr. Lee was elected in his place.

In the last two spring seasons the grade boys have made over two hundred bird boxes in the Manual Training shop. This spring the Boy Scouts, who are taking the work, have made and sold almost a hundred wren houses. The boys paid for the material and then sold the houses, the profit going into their treasury for the summer outing trip. Several splendid bird houses and bird shelters were made for the bird house contest.

* * *

Patronize the advertisers of this book. They have responded heartily to our call for ads and it is these same men that back everything that is for the betterment of our school. This edition would have been impossible without their support. Now let's show our appreciation to them.

* * *

This booklet, which is the only one of this kind ever attempted by the high school, is due largely to the efforts and hard work of Coach Sugg, who originated the idea, and to the co-operation and assistance of several of the high school students. Roy Robison and Byron James are responsible for the large number of attractive advertisements, and the boys are to be congratulated on the way that they handled the ads. The longer articles were written by Julia Patton and Ruth Bowers. We are indebted to Mary McCullogh, Paul Houghton, Gertrude Montgomery, Julia Patton and Ruth Bowers for the editorials.

* * *

Did some say that Atlanta High had lost the old "pep"? Did you attend any of the games? Well, then if you did you know that there never has been a time when old Murphy Hall has known as much pep as it did this winter. Pep? When the town people and business men got so interested that they cannot miss a single game, and when there are pep meetings such as were held in the high school assembly this winter at various times, we can say that that certainly is pep.

The Patron-Teachers’ Association, which has been meeting once a month during the past year, held its last meeting in the high school assembly the first week in May. This was perhaps the most successful meeting of the year from the standpoint of attendance and interest. The program consisted of several excellent musical numbers and also a dress review by the girls of the high school Domestic Art class. The dresses were all made by the girls in their class work. Following the program a social hour was spent, after which refreshments were served by the girls of the Domestic Science department.

* * *

Owing to a general lack of interest (and the bashfulness on the part of the boys) literary societies have been neglected in the past three or four years. This is a fact that should be deeply regretted, as nothing so tends to produce enthusiasm and interest in school work as a display of literary talent. The Atlanta High School is not without talent by any means and a chance should be given those who will push it to produce worth while programs and concerts for the school patrons. We, the seniors, sincerely hope that in the future the students will see the need of more school programs and will again bring out the old literary societies that used to be so interesting. (By a senior.)

* * *

Supt. Darnall will not return next year as he has accepted the principalship of the Genesee Township High School for next year. We are indeed sorry to lose Mr. Darnall for he has organized the work of the school and placed it on a basis with the best schools in the country. Mr. Darnall will be in charge of over two hundred and fifty students and at a neat increase in salary.

* * *

Mr. Sugg will also not return. He intends to re-enter Millikin next fall as he has one more year before graduating. During the two years that Mr. Sugg has been with us he has placed our athletics on a standing with the best teams in the state. His teams licked all of the smaller towns and made a mighty good showing against the teams of Bloomington, Decatur and Springfield, which speaks well for Mr. Sugg.

Tailoring, Shoes, Hats, Furnishings, Dry Cleaning and Pressing.

Atlanta, Illinois Phone 771
We greatly appreciate the courtesy of the Bliss Studio of Lincoln, Illinois, in contributing the splendid pictures in this booklet to us without cost. They are a mighty good example of Mr. Bliss' high class work.

* * *

This booklet has been gotten up, ads subscribed, and the material printed in less than three weeks' time. Had the work on it been begun sooner we would have had a much better one, but we feel that we have done real well in the short time. Through an error of the engraver a snapshot of Miss Haffner was misplaced which should appear on the page of snapshots. They are also responsible for Leland's name appearing under the picture of the Chemistry class as his name was on the back of the print.

It is impossible now to make the corrections and still get the book cut by the end of school.

* * *

Now in parting, let us say—Make next year and the years to come the biggest and best that the school has ever had. Boost the enrollment up to the hundred mark. With a goodly number of pupils from the country entering next fall we can get back to where we used to be in enrollment. Boost in every way for the old A. H. S. And we are hoping that this booklet is a forerunner of yearbooks that will be published in the future. With the hearty co-operation that we know the business men will give, and hard work on part of a good staff, there is no reason why Atlanta cannot have an excellent annual. Back your superintendent and teachers, boost your athletics and your school functions, push anything that is for a "better Atlanta High" and we are sure that the school will quickly go back to the standing that it used to have. Now—all boost.

* * *

DISOWNED

Murphy (dubiously): "Why you're growing a mustache, aren't you?"

Dunham (boldly): "No." (A cheerful)

And then Murphy laughed and told Leland that his upper lip reminded him of two basketball teams for there were five on each side.

* * *

The faithful dog salutes the smiling guest.—Pup.
Miss M. in history class—"What were the means of transportation in 1776?"
Alta S.—"There was but one rail-
road."
Miss N.—"What was that?"
Alta—"The Vandalia."

Clerk in Lincoln (visibly amused at Georgene): "Why, er— we don’t keep anything in ladies’ wearing apparel. This is a hardware store."

Ruth S.: "Oh, Grandma is much stronger than he looks."

Louie’s poem—
"I see
A bee."

Adella, translating in French: "And she took the baby walking in a baby buggy."

The pictures in this book are from the studio of BLISS.

Aren’t these evidence of High Class Photography?

Get the BANK book first, and be a man with money.

The fundamental principles of education are “readin’, ‘ritin’ and ‘rithmetic.” All of these can be learned PRACTICALLY in a BANK BOOK.

If your boy has a bank book he is learning what arithmetic is for. It is the practical application of a thing which teaches it in the most beneficial and lasting way.

If your boy has NOT got a bank account see that he OPENS one.

Put YOUR money in OUR bank.
