

FISHING DATA INNOVATION TASK FORCE

A Partnership to
Improve U.S.
Fisheries Data
Systems

IMPROVING NET GAINS

DATA-DRIVEN INNOVATION FOR AMERICA'S FISHING FUTURE

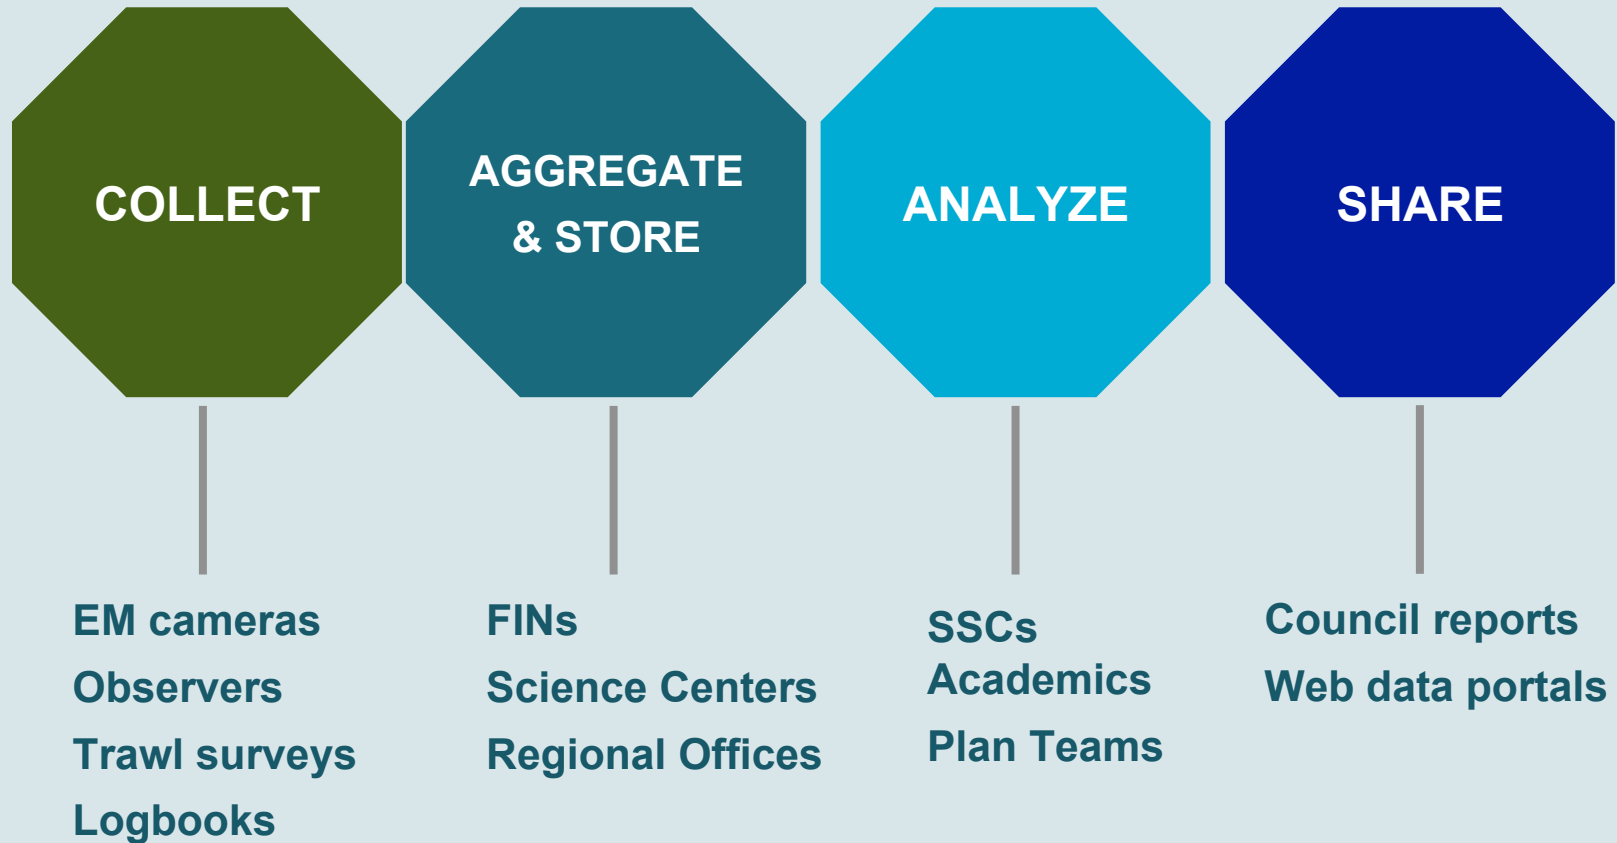

Council Coordination Committee Meeting
May 2018

What is Data Modernization?

Improvements along the data value chain that help the Councils, NMFS and other management entities do their work better and support industry information needs

The Data Pathway

Fishing Data Innovation Task Force

- Who we are
- Why we developed the *Improving Net Gains Report*

Improving Net Gains Report

- Key Findings
- Vision for Success
- Recommendations

Activities Since Report

- Discussions with NMFS Leadership
- Initial Regional Outreach
- Discussions with Potential Funders

Why Now?

- Progress on ET Implementation
- Ongoing updating of ET Policies
- Funding Opportunities

Questions for CCC

- Where do you see need for improvements?
- How to best engage all stakeholders going forward?
- Opportunities for private/public partnerships?
- Other considerations?
- How can we best help you?
