Atlas Update

- Target release of beta version of the Atlas planned for Spring/Summer 2023
- NMFS QA/QC’d the CCC managed area database. Quality was very good; a few issues were caught and corrected
- NMFS will consider using CCC managed area database as a foundation for submitting areas to the Atlas
Marine and Coastal Area-Based Management FAC Update

- New discretionary advisory committee
- Provide advice to NOAA
- In the process of choosing from almost 100 applicants
  - Expect a Committee of 20
- Expect first meeting to be summer/fall 2023
Federal Interagency Committee for Outdoor Recreation Update

- FICOR re-established July 2022
- Inter-Agency MOU
- Charter/Work Plan
- FICOR is intended to support the recreational activities under ATB
Engagement with Aquarium Conservation Partnership

- Met with NOAA in February 2023
- Continued to develop a work plan of actions ACP can take to further the goals of AtB focusing on the following areas:
  - Develop a framework of equitable and inclusive best practices to enhance engagement of Indigenous, youth, and communities of color.
  - Inspire and mobilize audiences through public engagement, education, and incubation.
  - Inform conservation priorities and policies to support new and maintain and/or strengthen existing protected area designation, protection, and monitoring.
Thank you!
