A modern outdoor patio scene. The background wall is dark and features a large, vibrant mural of tropical green leaves. In the foreground, there is a wooden bench with several dark green cushions. To the left, two wicker chairs with black metal frames are positioned. A small, glowing spherical lantern sits on the floor near the bench. The floor is covered in dark grey tiles with a light grey geometric pattern. The overall aesthetic is contemporary and nature-inspired.

CURATED TILE MURALS

As creatives, we are ever searching for products that are artful, unusual, elevated, and inspired. We believe in the power of collaboration where collective minds create the uncommon. Following a research trip to Lisboa Portugal, Jenn Zella, founding partner of CID Design Group and Collective, envisioned co-creating a muralesque tile collection with longtime friend and beloved fine artist Kristy Gammill. The collection was intended to bring forward the storied tile facades of Lisboa to today's buildings and spaces. The duo carefully curated a collection of Kristy's brilliant botanical-inspired paintings as the first Brick & Brush series for Audrey Lane.

The canvas for the collection is a handmade Moroccan zellige tile that is as beautiful as the works of art it holds. What makes this collection so unusual is not only its artistry but the powerful customization that Audrey Lane is known for. The collaboration between these four women has brought to life an uncommon product that was created with joy and purpose. The collection is intended to celebrate true artistry and be cherished indefinitely like fine art and the storied walls of Lisboa.

## Kristy Gammill

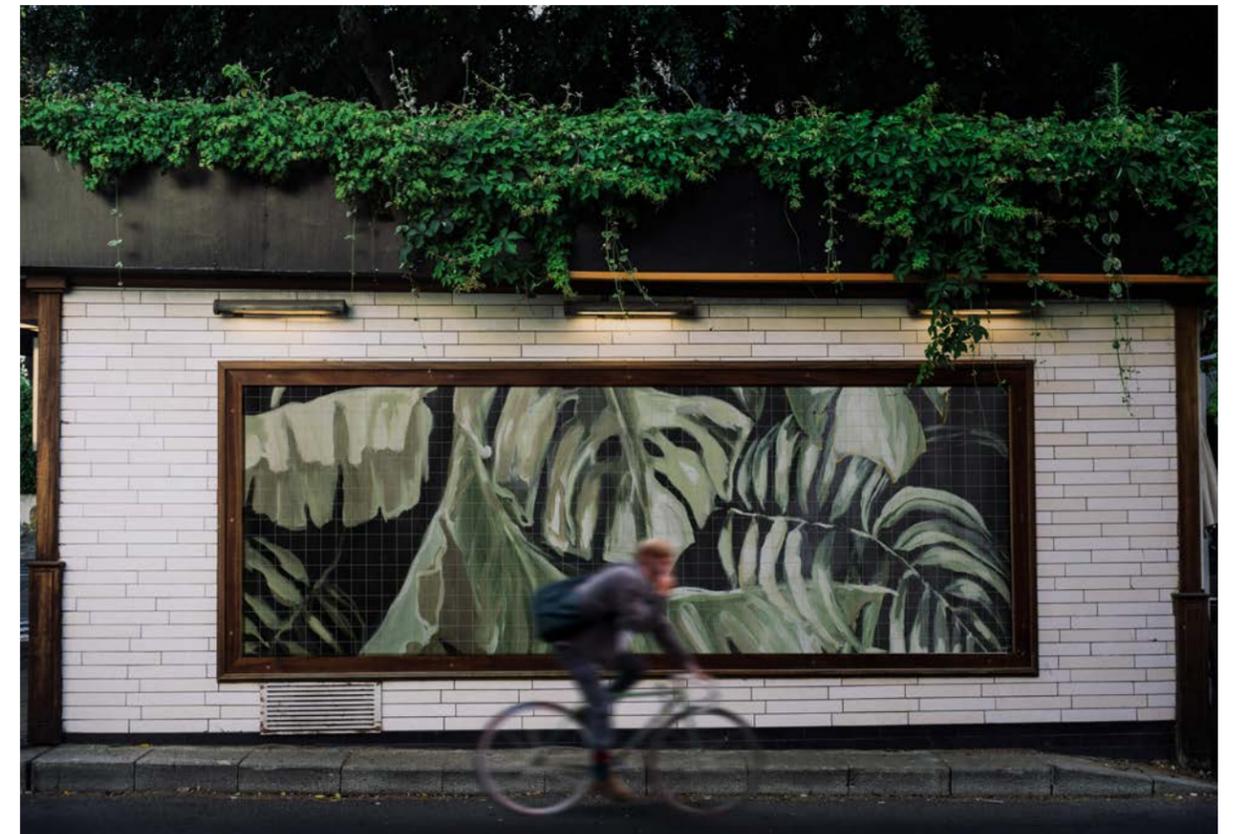

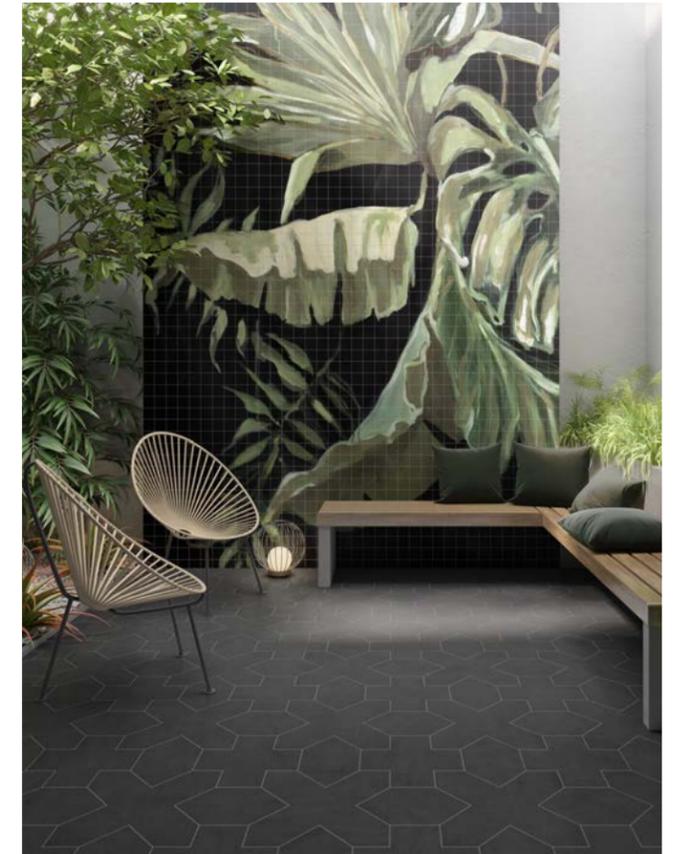

Naples-based painter Kristy Gammill is known for creating atmospheric paintings that often involve staining large raw canvases with earthy colors, recalling travels to the desert as well as sandy, muted tones reminiscent of the beach nearby her home. She also paints muscular abstracts, botanicals and figurative portraits with the limbs and faces partly hidden or portrayed close up. Imagine mixing the mid-century heft of Helen Frankenthaler with the folded figures of Christina Quarles.

## VERDANT

by Kristy Gammill

A perfect harmony of neutral, earthy tones and textures seamlessly intertwined with striking black accents, complemented by organic movements. The tropical allure of what first appears to be feather-light leaves is visually captivating, adding an enchanting touch that would elevate the ambiance of any space.

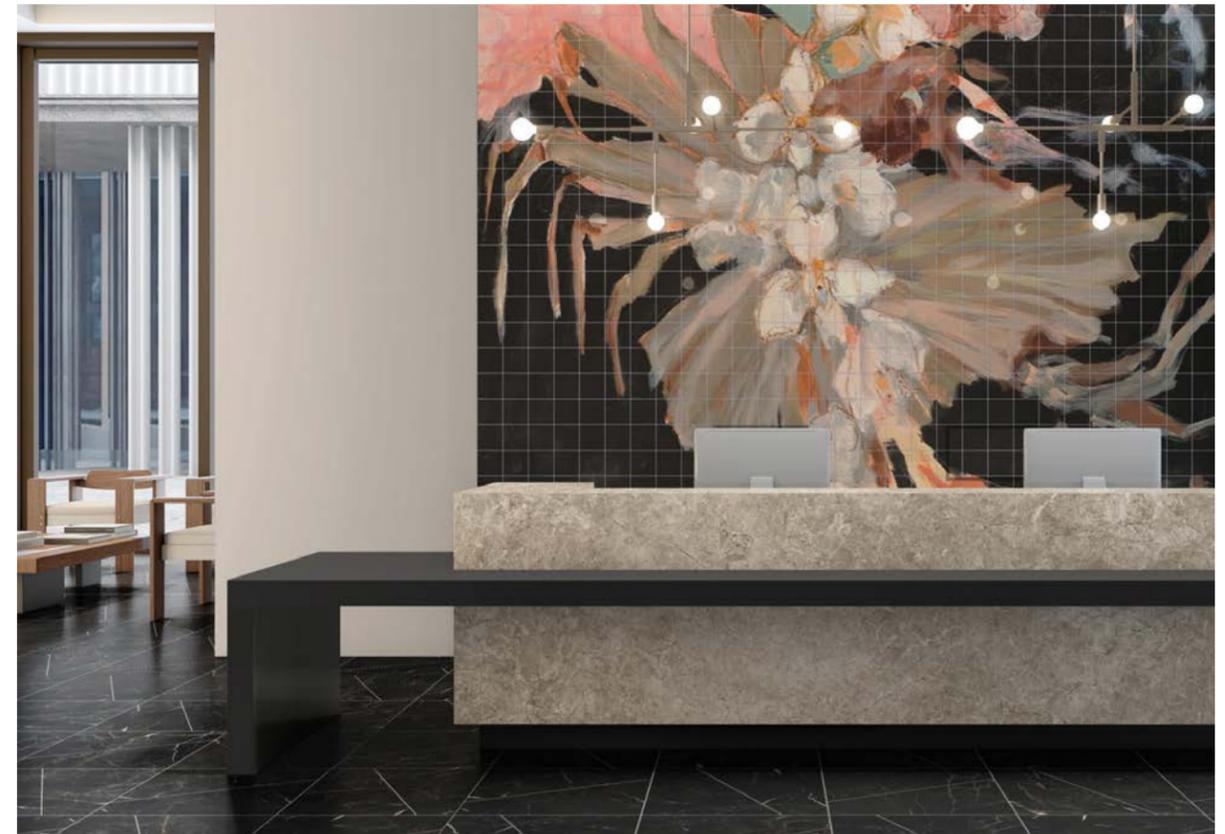

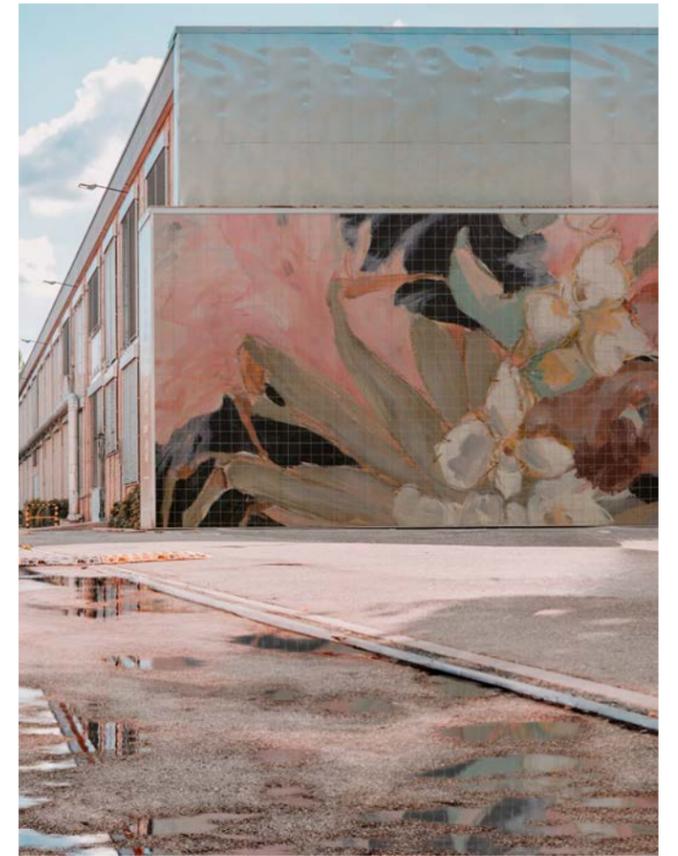

# POSY

by Kristy Gammill

Through movement and a striking palette, Posy's close-up offers a textured experience while it weaves a narrative of exquisite flora. The overarching story skillfully captures the dynamic movements encountered in nature. The contrast of the dark background and saturated forefront colors creates a charming elegance.

With a brighter background, Protea takes on a more playful, lighter, and airier ambiance. The brush strokes, while inherently masculine, beautifully juxtapose the feminine nature of the piece, adding depth and contrast.

## MORNING MONSTARA

by Kristy Gammill

The bright, elevated backdrop dances in harmony with the contrasted dark line work, offering a playful atmosphere to the piece. The focal point of the painting lies in the causal detailing of tropical flora, which tells a captivating story of an inverted palette.

Throughout this piece, there is an interplay of shadow and light, creating a captivating contrast and allowing the piece to speak a language of moody sophistication. Black and white contrast has a historical influence that speaks to a timeless class and refinement. Subtle drips of the medium narrate a story of edginess.

## PAMPAS & PALM

by Kristy Gammill

The vivacious allure of natural pastel botanicals evokes a sense of textural charm. A combination of delicate palm edges adds angularity on top of the opaque background while a craft of dynamic visual balance materializes. Juxtaposition of light feminine softness is harmonized with a rigid masculine edge through thoughtful strokes. The featured bouquet is seamlessly intertwined with lush richness and subtle blends of native colors with several tones and hues that blend into any space while telling a captivating story.

## VARIEGATED

by Kristy Gammill

The lush richness, presented by a plethora of leaf species, all coming together playfully, is further accentuated by the vibrant shades of green leaves, infusing a dynamic and invigorating energy into the piece.

With our high-resolution imagery and hand-made 4"x4" Zellige tiles, each custom mural is a testament to craftsmanship and creativity. Experience the freedom of expression with our custom design tool, where every creation is a masterpiece in the making.

Zellige, a cherished Moroccan tradition, is painstakingly crafted by skilled artisans. From the meticulous shaping and pressing of clay to the intricate glazing and precise cutting that forms field tiles or intricate patterns, every step is a testament to the artistry that has been passed down through generations. In Morocco, Zellige isn't just a tile; it's an integral part of everyday life. Its intricate patterns adorn public and private spaces, weaving the tapestry of Moroccan culture.

In the United States, our Brick & Brush Zellige has captured the hearts of those who appreciate its handmade charm, its vibrant color variations, and its unique, uneven surface that dances with light. Its versatility allows it to seamlessly fit into various interior styles, from Mediterranean Modern to Boho, Modern Farmhouse to Contemporary.

With hand-made zellige tile, you should anticipate charming imperfections such as unevenness, color variations, and minor chips. These distinctive irregularities result in each tile being one-of-a-kind and exceptionally beautiful. Suitable for interior wall applications. For exterior walls we use a porcelain bisque.

A brick wall with an arched opening. Inside the arch is a mural of a white dog, possibly a Weimaraner, with long, flowing fur. The dog is depicted in a dynamic, almost abstract style with visible brushstrokes. The background of the mural is dark. The brick wall is made of reddish-brown bricks. The overall lighting is warm and focused on the archway.
