

BREWS

TASTEFULLY SELECTED FOR YOUR CONSIDERATION

BEER

We're now offering a wide range of local and imported craft brews on tap and in bottles.

After years of handling great beer at Toit, we're aiming to make The Permit Room your new favourite craft beer adda a.k.a hangout!

Also, keeping with international standards we have installed a cold room specifically for this purpose, where craft beers will be stored in kegs at just the right temperature. From here, your beer will be pumped right to your glass through specially insulated beer lines. Rest assured, the craft beers you drink at The Permit Room will be in top form!

ON TAP

GEIST
