

GeeCycle.org

Thank you for donating your old smartphone to help a refugee in need.
Before you post your phone, here's what you need to do:

Step 1 – Save any files

Save any files that you need on your old smartphone and then carry out a factory reset to clear your personal data.

Step 2 – Unlock your phone

Make sure your phone is unlocked. Get in touch with your mobile provider who will be able to unlock your phone for you. This is important as your old smartphone will need to be able to connect to networks in other countries.

Step 3 – Pack and send

Pack your phone well to protect it on its voyage and please remember to include the charger!

PLEASE ADD POSTAGE
