Policies and Procedures
for the Use of AOC Facilities, Equipment and Services

Issued by the
AOC Board of Directors
March 2014
Welcome to AOC Community Media

This information is designed to answer questions regarding proper procedures for accessing cable space and for accessing and operating facilities and equipment for production of television programming.

This manual gives community members the information they need to ensure a successful public media experience for themselves and our community. AOC intends to keep the manual as simple as possible and consistent at all times. As technology and services expand, this document may be amended. Members are expected to review this document upon joining or renewing with AOC.

AOC Community Media makes facilities and equipment available to its membership for the sole purpose of creating media programs for non-commercial, community presentation. AOC provides tools, training and distribution to a wide range of individuals and groups representing diverse interests. Since AOC has limited resources, we have policies to ensure equitable distribution of facility resources. AOC is happy to clarify policy but cannot change policy for individual cases or situations.

Policy Manual Summary

AOC is strictly non-commercial. Users are not allowed to make money, receive compensation or produce commercial work. Users should not submit programs with commercial advertising or any solicitation of funds (commercial or non-commercial).

Using AOC facilities means user is agreeing to provide program content for distribution by AOC. In return for use of AOC equipment, users are expected to present a program for distribution over medium or media under AOC control: television, internet, DVD or others.

Responsibility rests with the producer. AOC’s contact is with the producer. This means crew members, friends and relatives do not make adjustments to the producer’s agreements. Most communication is handled through email. This helps reduce the cost of communicating with members, saves time and creates a record of correspondences.

Only AOC members in good standing are permitted to reserve AOC resources. A member’s file must be up to date and correct for anyone reserving facilities or checking out equipment.

First come, first serve is an overriding consideration for resource allocation.

Paperwork must not only be completed, it must be correct and time stamped. Web-based requests are automatically time stamped.

If members are going to be late for any reservations, they are to contact AOC at 337-232-4434 or info@aocinc.org. If members are more than 15 minutes late without calling, the reservation will be void. Making and sticking to timelines is the basis of nearly every media production regardless of
method or medium.

Members are fully responsible for the equipment while it is in their care. Members are not to allow anyone else to operate the equipment. The user member accept financial liability for the replacement cost of any equipment lost or damaged while in their possession. This does not include normal wear and tear.
