

Dear Prospective EAGLE Scholars Intern:

Thank you for your interest in the Vickery Meadow EAGLE Scholars Summer Internship.

Vickery Meadow is a densely populated community right across the freeway from Northpark Mall. Many immigrants, refugees, and people of many different ethnicities call Vickery home. The families have vast social and economic needs, but also have children full of potential. Families in the Vickery community are seeking ways for their children to access opportunities and gain experiences that will help them reach their goal of college.

EAGLE Scholars was developed to provide 7th-12th grade students with these opportunities. Students at Tasby Middle School are nominated by teachers at the end of their 6th grade year. Thirty new students enter the program each year and are chosen based on attitude, ambition, grades, and attendance. Once in the EAGLE Scholars program, students receive encouragement, assistance, guidance, and opportunities until they graduate from high school.

EAGLE Scholars University summer program was developed in response to a need and desire by students to gain a better understanding of college, as well as provide them with the knowledge of skills needed to stay on track in order to be prepared to enter college. We utilize an experiential learning approach by creating a simulated college environment that includes an academic focus, career tracks, college visits, and teambuilding activities. To help our students meet our high standards, we seek Interns who have high academic skill levels, are creative thinkers, are flexible, and are people who enjoy learning.

If you will have completed at least two years of college by the summer, or if you are a recent college graduate (within 2 years), you are eligible to become an EAGLE Scholars University Teacher Intern.
