POINT LIGHTING CORPORATION was founded in 1993 by a group of airfield lighting professionals dedicated to the values of service, quality and expertise in the fields of aviation obstruction lighting and airfield lighting. **POINT LIGHTING CORPORATION** offers visual navigational aids and technical advice to consultants, industrial plants, airports and contractors with quality products sold through electrical distributors and representatives. Point Lighting uniquely combines in one company years of experience in aviation lighting manufacturing, marketing and international sales.

The company has special expertise in application engineering for heliport and offshore helideck lighting projects including hospitals, oil rigs and marine vessels. Also aviation obstruction lighting systems for cell towers, wind turbines, tall buildings and major industrial sites. **POINT LIGHTING CORPORATION** also manufactures airfield lighting products and exports 60% of its sales. **POINT LIGHTING CORPORATION** products are *Made in USA* and certified to FAA, ICAO, ATEX, IECEx, CE, CSA and numerous other applicable standards of safety and quality. Upon request, reference lists of Point heliport lighting, offshore helideck lighting and obstruction lighting projects will be furnished.

President

Michael J. Callahan

Mike is known worldwide within the airfield lighting industry for the last 35 years. Before founding Point Lighting Corporation in 1993, he traveled to the Middle East and Europe for thirteen years with Westinghouse; with an independent distributor, Ohm Electrical Supply; and as the Crouse-Hinds regional sales manager and product marketing manager for airport lighting. He sold airfield lighting systems for many of the largest airport projects in the Middle East such as Riyadh, Jeddah, Dubai and Amman.
