

❖ Worksheet Assignment 5

Patient #4: Ben

Name

Date

Health condition

1. Describe Ben's medical history.

Observe the patient and the environment

2. List 6 observations of Ben and his hospital room that indicate possible precautions.

3. How would you describe Ben's behavior?

What would you consider to be the source of this behavior?

4. Why was Ben's blood pressure monitored during his physical therapy session?

What effect did the positions of supine, sitting and standing have on his blood pressure?

5. What recommendations would you give to Ben's family to help decrease his level of frustration?
