“Lei Yue Mun” is a famous fishing port in Hong Kong and is well known for its seafood. Visitors are free to roam the market and select their favorite seafood from an abundance of stores. In hopes of bringing this cultural experience into the United States, Koi Palace opened its first location in Daly City in 1996, so that customers can vicariously experience the same freshness in seafood found in Lei Yue Mun. Upon entering the restaurant, customers are greeted by teams of live fish amongst a large variety of sea creatures dwelling in an enormous, custom-built aquarium. Because freshness is paramount to Koi Palace’s mission statement, every dish is meticulously prepared and cooked by some of the finest chefs. As customers indulge in their sumptuous meals, they can also appreciate Koi Palace’s equally elegant grand-ball decor.

A service charge will be added to the bill to accommodate our staff who have contributed to your meal at Koi Palace. We thank you for your patronage.
