

FOR IMMEDIATE RELEASE

LucaNet UK Limited Welcome Our Latest UK Partner, Cencea Business

14th December 2015

LucaNet UK Limited is today delighted to announce our latest partner here in the UK, Cencea Business.

Agile financial performance management is the core focus of the LucaNet solution, which takes an innovative approach for the Office of Finance. Its modern architecture and interface permits rapid implementation and user engagement which makes use of built in financial intelligence, ideal for any small to mid-market organisation. With their strong heritage working and more specifically training clients in performance management with a focus on financial consolidation and planning, Cencea is perfectly positioned to embrace the LucaNet offering. Already being a highly accredited training and education partner with IBM technologies with an established pedigree and heritage in the Financial Performance Management domain, Cencea bring a depth of capability and understanding to our growing partner community here in the UK.

Gavin Allen, Managing Director of LucaNet (UK) Limited commented "Having a partnership with Cencea represents a further step in the growth of the LucaNet business here in the UK. Having personally worked with Cencea in the past, they bring a heritage and understanding of all that we stand for here at LucaNet, especially in the financial consolidation arena. Welcome aboard, it's a delight to have you as part of the growing LucaNet family."

Ricky Parkash, Owner and founder of Cencea Business adds "Cencea Business has been building a portfolio of performance management products over a number of years which includes financial consolidation, planning, budgeting, forecasting, and reporting. LucaNet satisfies all these with additional capabilities that make it a perfect fit for our business. It's truly simply intelligent and we very much look forward to working with LucaNet to enhance our customer's office of finance experience efficiently, effectively and always with a smile. Ricky Parkash. Director.

LucaNet offers finance professionals and executives a single application for the fundamental elements of financial performance management. By employing modern systems architecture, LucaNet provides a rapid and simple development environment, designed for finance. Built-in financial intelligence,

Simply intelligent.

transparent workflow, commentary, rich financial consolidation and planning capabilities together with intuitive reporting, deliver a fundamental game-changing environment from which to run these key financial processes.
