**“Very easy to use”** This product is easy to see and is a lot safer to put on, and especially safer when cutting them off ...

5 out of 5 stars on JJKeller.com for Plastic Seal

jer1243  
Safety Professional Memphis, TN

**Plastic Strap Seal**

Locking barrel is shorter and sturdier than comparable seals, decreasing the chance that it will be crushed, causing the seal to fail. Smaller barrel also reduces costs due to resulting smaller and lighter-weight packaging. Stock seals hot-stamped with “J. J. Keller” and sequentially numbered (8 digits) with our choice of starting number. Personalize with your company name (up to 20 characters, lowercase or uppercase) and sequential numbers according to your specifications (up to 8 digits). Hot-stamp ink colors available: black or white. Barcoded seals are laser etched. Pull-apart strength of 60 lbs.

## SimuLock Seal

- Features clear inspection window for easy checking of the locking mechanism. Window is ultrasonically welded to the seal; it cannot be cut or forced open without leaving clear evidence of tampering
- Name and consecutive numbers are permanently etched by laser
- The multi-strand snapping point provides easy removal of the seal while security breaking lines prevent a broken seal from being glued or welded together without leaving evidence of tampering
- Simultaneous double locking mechanism makes tampering very difficult
- Lighter colors for improved readability
- White stock seal includes barcode
- Strap is ¾" W x 8" L with pull-apart strength of 60 lbs.

### Stock Seal

Plastic, laser-etched, ¾" W x 8" L

Seal Color	Product Code	Pricing	
White	ZZ-17534	5,000–9,000	\$105.56*

**“We buy a large volume of security seals in a variety of styles. J. J. Keller helps us get the right one for each load.”**

“We purchase thousands of security seals each month, and thanks to J. J. Keller, ordering is streamlined and simple,” says Bruce Wishart, Director of Security at Celadon Trucking Services.

Bruce creates, implements, and oversees security policies and procedures for Celadon’s 10 North American terminal facilities and over 4,000 employees.

**“We Rely on J. J. Keller’s Total Dedication to Us — They Make Us Feel Like We’re Their Only Customer.”**

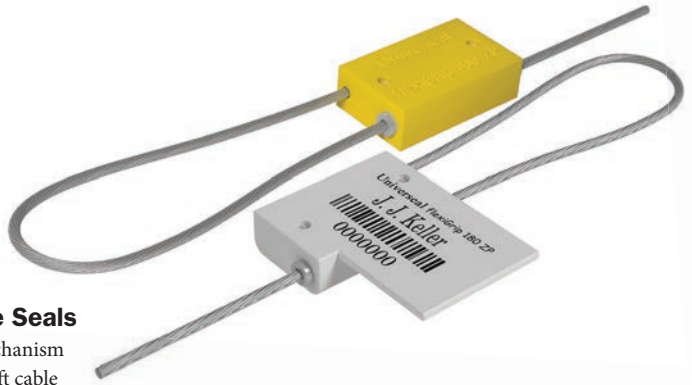

To Bruce, the only thing better than J. J. Keller’s products is its people.

“We’re loyal to J. J. Keller because they’ve proven their loyalty to us, time and time again. I’m proud to recommend them to my colleagues in the industry. I know that they’ll experience the same good quality products, good prices, and good people that we do.”

— Bruce Wishart  
Director of Security  
Celadon Trucking Services  
Indianapolis, IN

*Celadon drivers are given convenient packets of consecutively numbered seals to use for their next 10 loads.*

## Help speed up border crossings with our C-TPAT-compliant seals!

C-TPAT (Customs-Trade Partnership Against Terrorism) is a voluntary government-business initiative designed to strengthen and improve international supply chain and U.S. border security. Motor carriers who participate in the C-TPAT program are required to secure cargo with an ISO 17712:2013 high security cargo seal. These seals have been checked to withstand the rigors of the various links in the supply chain, including tests for tensile, shear, bend and impact strength.

**Our high-security seals are C-TPAT compliant, so they help eliminate time-consuming secondary inspections and expedite customs crossing. Look for the C-TPAT Compliant logo throughout the catalog.**

### ISO 17712:2013 Regulations

**On May 15, 2013:** The International Standards Organization (ISO) published a new version of ISO 17712, with a major change to Clause 6, Evidence of Tampering.

**As of May 15, 2014:** Responsibility for conducting tamper evidence testing shifts from third-party testing labs to seal manufacturers, who must ensure their seals follow established and auditable tamper-mitigation procedures.

**Seal users can rest assured — all J. J. Keller® bolt seals originate from reputable manufacturers whose seals conform to 2013 Clause 6.**

*“Beyond outstanding.”*

"I value J. J. Keller's customer service, which has been beyond outstanding. There are other distributors, but none whom I feel so glad to do business with. I trust any product or service they recommend, and I continue to be amazed by the quality of service that J. J. Keller provides. I have already recommended J. J. Keller to others and will probably take every opportunity to do so in the future. This has been a distinct experience of how right one company can get it."

Adam Creighton  
Development Agent  
Institutional Stove Solutions (InStove)  
Cottage Grove, OR

**Container Bolt Seal**

- Features a locking mechanism embedded in a groove in the metal barrel, making the seal stronger and more difficult to tamper with
- Solid steel high-carbon pin (8 mm diameter) and steel barrel with ABS plastic coating
- Permanent laser engraving on barrel offers added security
- Stock seals are pre-printed with "J J KELLER" and 8-digit consecutive numbering. White seals (ZZ-17434) include Code 39 barcode numbering on barrel. Personalize with your company name (up to 16 characters) and consecutive numbers (up to 8 digits) according to your specifications
- Pin size is 26 mm long, 22 mm diameter
- Pull-apart strength of 6,393 lbs.

## The Best Seal For High-Value Loads

### MegaLock Bolt/Cable Seal

- A unique integrated combination of 2 proven barrier seals (cable and bolt) not available in any other seal on the market. Bolt seal secures the trailer door latch and 43" cable seal (with its own separate locking body) secures the lock rods on a swing door trailer or container
- Permanent laser-engraved triple numbering on the cable body, bolt pin, and bolt barrel helps prevent parts substitution (not available in any other cable or bolt seal on the market)
- Stock seal, available in white only, is stamped with "J J KELLER" and consecutively numbered (8 digits). Personalize with your company name (up to 10 characters) and consecutive numbers (up to 8 digits) according to your specifications
- One-of-a-kind double lock gives an unprecedented higher level of security
- 1" cable lock body with 61¼" long cable
- Pull-apart strength of 3,306 lbs.

### Stock Seal

**FlexiKlick Flexible Bolt Seal**

The pin of this flexible seal is made from soft galvanized wire so the cut-off parts of the seal will fray and not puncture tires if a truck drives over it. And, compared to rigid steel bolt seals, this seal is safer to use and easier to cut when using a cable cutter ... a plus for operations challenged with removing or applying large volumes of security seals on a daily basis.

- C-TPAT compliant seal conforms to the 18 mm requirement of ISO 17712:2013
- Laser-engraved dual numbering on both pin and barrel prevents parts substitution
- Anti-spin feature protects against friction attacks
- An extra long pin makes this seal perfect for truck trailers with roll-down door latches that require additional pin length
- Flexible pin made from galvanized wire provides excellent protection against crude tools such as hammers, crow bars and steel pipes. On impact, the pin will bend, not break
- Stock seals are engraved with "JJ KELLER" and eight-digit consecutive numbering. White seal (ZZ-17278) includes Code 39 barcode numbering on barrel. Personalize with your company name (up to 16 characters) and consecutive numbers (up to eight digits) according to your specifications
- Pin size is 92 mm L, 11.9 mm diameter. Operating length: 2 1/4"
- Pull-apart strength of 2,866 lbs.

5 out of 5 stars on [JJKeller.com](http://JJKeller.com) for Klicker Bolt Seal

## SnapTracker Bolt Seal

- Stock seals have "J J KELLER" printed on pin and barrel with 7-digit consecutive numbers. Personalize with your company name (up to 12 characters and 2 lines of text) and choice of consecutive numbers (up to 7 digits)
- Billboard-style ID tab allows for larger numbers, bar coding, and convenient left-to-right reading
- Duplicate numbering on pin head and barrel prevent fraud
- Anti-spin feature protects against friction
- Requires bolt cutter to remove
- Seal parts won't stick upright after being cut, reducing risk for punctured tires
- Pin size is 86 mm long, 11.3 mm diameter, constructed of ABS plastic-coated steel
- Unique storage box (10 seals per tray) keeps seals in numerical order, while compact packaging reduces shipping and warehouse storage costs
- Pull-apart strength of 3,000 lbs.

ZZ-27117  
 12-23 rolls **\$31.19 ea.**  
 6-11 rolls **\$32.01 ea.**  
 1-5 rolls **\$33.00 ea.**

### “This tape is well worth the cost”

*I purchased security tape from J. J. Keller and found it perfect for what I am using it for, which is attaching the tape reading for alcohol random testing to the form. I can tell now that this tape is well described and will last a very long time for my needs. Thanks for a great product.*

72-hour access to the video via the internet.

**Basic version**

**ZZ-24503 \$50**

Visit [JJKeller.com](http://JJKeller.com) for more information.

**Hazmat: Security Awareness & Safety**

Helps satisfy the security awareness and safety training requirements. After completing the course, employees should be able to:

- Recognize potential hazmat security threats and ways to reduce them
- Identify suspicious behaviors and describe how to report suspicious activity
- Describe ways to stay safe while working around hazmat
- Discuss where to find emergency response information and how to respond to an emergency

Before taking this course, employees must have hazmat general awareness knowledge from experience or successful completion of appropriate training.

**Online Course (Tablet Compatible)**

# DRIVER SKILLS TRAINING

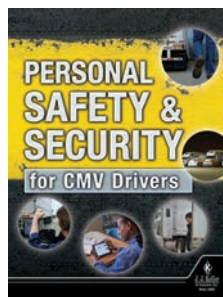

Commercial Motor Vehicle (CMV) drivers may encounter a threat to their personal safety and security in any location, at any time. This training will help drivers minimize those threats, manage risk, and better achieve an incident-free trip.

## Help Drivers Protect Themselves From Potential Threats

### **NEW** Personal Safety & Security for CMV Drivers

Discusses the potential threats drivers face and their best course of action to keep themselves safe from theft and physical violence, including:

- Protecting themselves against potential dangers to their personal safety during trip planning, when on the road, and during every stop along the way
- Developing a heightened sense of awareness of their surroundings and any potential dangers they may encounter
- Recognizing threats and reacting appropriately to keep the situation from escalating
- Applying techniques to minimize their risk of being targeted

#### DVD program includes:

- 22-Minute Closed-Captioned Video
- 24-Minute Hazard Perception Challenge Scenarios
  - Before You Head Out
  - Road Rage
  - Truck or Rest Stop
  - Drop-off Location
- 4-Minute Note to Trainers Video
- 1 Trainer Tools CD
- 1 Trainer Guide
- 10 Driver Handbooks
- 1 Awareness Poster

**ZZ-48469 \$395**
