Without access to learning experiences over the summer, children lose an average of 2 months of learning over the summer. These losses are cumulative and the gap widens every year.

Nationally, Dallas ranks #6

For food insecure children. Hunger increases during the summer when children lose access to free/reduced lunch programs at school.

The average family saves $800-$1,000.
This cost savings ensures children have a safe place to go and are engaged in productive activities.

83%
Of low income children do not have access to regular care/activities over the summer.

Only 7%
Of low income children attend Summer Camp.
