Please bring your family and friends and join us for this extremely important civic engagement opportunity.

Why is this important?

Los Angeles is home to the largest school district in the country with an elected school board, serving over 600,000 children. The Los Angeles School Board yields tremendous power, including hiring and overseeing the Superintendent. Yet, LAUSD School Board elections have historically turned out less than 10% of eligible voters.

We can change that!

Together, we can turn out the vote for LAUSD School Board elections for the sake of Los Angeles' children, economy and our future.

Goals for the evening:

- Understand the most important issues facing LAUSD
- Get to know the LAUSD Board candidates in District 4
- Engage the District 4 community & get out the vote for the sake of the 600,000 children in LAUSD public schools.
