A RESOLUTION ON IMPLEMENTING TISSUE AVAILABILITY WITHIN CLASSROOMS

WHEREAS

most classrooms at SMU are not equipped with tissues as there is currently no policy concerning the availability of tissues across the campus

RECOGNIZING

that the current lack of tissues requires students to leave class any and every time they need a tissue, thus causing not only the student in need of a tissue to potentially miss important class material, but also creating an unnecessary distraction to other students, thus detracting from the students’ ability to learn

ACKNOWLEDGING

that there may be logistical and financial limitations that prohibit the implementation of tissues in every classroom

NOTING

that several students have brought this particular issue to the Student Concerns Committee, identifying this as a problem with which they are concerned

BE IT THEREFORE RESOLVED

that tissues be continuously provided in every classroom (or at least as many as is logistically and financially feasible) across the SMU campus.

Respectfully Submitted,

Nancy Gracen Klein
Dedman Senator
