

Mr. Rick Lillie
T-10 Fleet Member
"Water Works"

Rick,

As we discussed I would like to offer the Chicago area Tartan 10 fleet the following special rates for storage for the upcoming 2017/18 winter storage season. Understanding that while none of us are boating yet this year, we all want to have time to evaluate and organize our plans for the entire season, including storage for next fall.

Accordingly, the following rates will be offered to the T-10 fleet until **May31, 2017**.

2-5 vessels:

Outside Storage	\$1,650.00
Inside Cold Storage	\$2,100.00
Inside Heated Storage	\$2,700.00

6-10 vessels:

Outside Storage	\$1,565.00
Inside Cold Storage	\$1,995.00
Inside Heated Storage	\$2,565.00

11-15 vessels:

Outside Storage	\$1,495.00
Inside Cold Storage	\$1,890.00
Inside Heated Storage	\$2,440.00

15+ vessels:

Outside Storage	\$1,420.00
Inside Cold Storage	\$1,795.00
Inside Heated Storage	\$2,320.00

*All rates include shoring and a one-time cradle transport from your existing storage yard to Chicago Yacht Works. Rates do not include shrink wrap, winterization or any other service work. Chicago Yacht Works is a full service marine facility and offers everything from fiberglass to canvas, electrical to rigging. Storage contract must be signed and deposit paid to take advantage of this offer.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rob Hannah', with a large, stylized flourish extending to the right.
