WORKS IN PROGRESS

**Works of BA students of Visual Communication Design and Art Education
Art Now! course, Centre for General Studies (YoYo)**

Art in the form of informal and transient creations. How to exceed the conventional definitions of everyday reality? Dream or nightmare?

The focus of the Colour and 3D periods of the Art Now! course has been on experimenting with colour and different materials.

Works in progress include paintings, collages, sculptures and small-scale installations.

The exhibition will be in the state of constant transformation during the course.

Helsinki Metropolitan Area Reuse Centre Ltd. has been supplying material used in the 3D period.
