- HARVEST PERIOD: December – April
- CERTIFICATIONS: Kosher, Rainforest Alliance

Finca Custepec is located in the state of Chiapas in the Custepec Valley, within the El Triunfo Biosphere Reserve buffer zone. The farm was founded in 1911 by Don Juan Pohlenz Dieckmann and his family.

From the beginning the family was focused on growing sustainable coffee while conserving the natural habitat. In 1956 the family founded Beneficio Custepec S.A. de C.V., a decentralized structure for the farming, processing and selling of coffee. The property is divided into 17 farms operated by Grupo Custepec. The farmers within the group continue to uphold the commitment to sustainability and preservation while providing excellent quality coffee.
