April 17, 2018

To: Popular Astronomy Club

Your work in 2017 preparing your community for the eclipse was truly outstanding and NASA and the Astronomical Society of the Pacific honor your dedication to astronomy outreach. Thank you for your continued membership in the Night Sky Network (NSN). Please let your membership know that we appreciate their efforts too.

The total solar eclipse inspired awe in so many across the country. It's estimated that 85% of US adults witnessed it live, either by looking up with solar viewing glasses or watching it online. Your astronomy club and many others helped get the word out in so many ways, from members appearing on local news to holding events and distributing glasses to schools and beyond. NSN clubs alone distributed more than 250,000 glasses in their communities.

The NSN website is accessed by tens of thousands of visitors each month. Be sure to put your upcoming events on the calendar so visitors find them. We look forward to working with you all for many years to come.

Looking up,

Vivian White and David Prosper
