Catalog & Price List 2016

▪ *Your Solutions Provider* ▪

Welcome to Pepperdines

Pepperdines is a state-of-the-art, family-owned business located in Denver, Colorado. Our company has seen many changes over its 40-plus years. From its beginnings as a rubber stamp manufacturer, Pepperdines evolved to include marking products and signage for both individual and commercial clients. The ever-expanding customer base created the opportunity to add printing to the services offered, followed in 1997 by the manufacture of flexographic polymer plates used by the corrugated industry to print boxes.

Diane Drew, our President/CEO, came on board in 1983. At that time the business, owned by Diane's parents, was in a southeast Denver strip mall. After several moves to accommodate our continuing growth, Pepperdines found its current home, a 32,000 square foot building just south of downtown Denver. The company passed from generation to generation, and in July of 2010, Diane became the sole owner of Pepperdines. She applied for WBENC (Women's Business Enterprise National Council) status and was approved in February of 2011 as an official woman-owned business.

"Every person on our staff is committed to our clients' success. They have been and continue to be critical to our growth, quality and spirit. For that reason, we put a premium on hiring the best, most highly qualified people to serve you."

Diane Drew, President / CEO

This catalog shows the most frequently requested marking devices and accessories. In addition, any number of custom marking solutions are available, including special configurations, custom bands and inks for industrial applications. Please contact us for any special marking requests you may have.

How to Order Stamps:

1. **Use custom order form:** Located on the back of this catalog or at pepperdines.com/resources
2. **Copy:** Print or type copy carefully.
3. **Size and Space:** Specify exact size or space stamp must fit into. Size by inches in height and length of copy itself.
4. **Arrange Copy:** Set copy approximately with line breaks as needed.
5. **Borders:** Designate if stamp is to be made 'with border' or 'without border.'
6. **Self-Inking, Xstamper & Die Plate Daters:** State size and style, and specify ink color for pads.

What is the difference between Pre-Inked and Self-Inking stamps?

Xstamper Pre-Inked Stamps

The Xstamper pre-inked stamp is made of the highest quality laser engraved rubber, which results in a great print image every time! Composed of an eco-friendly plastic mount and dust cover, as well as a patented, durable, porous rubber die, the Xstamper will make thousands of clean impressions before re-inking, which is fast and easy. Our Xstamper pre-inked stamps are the highest quality stamps on the planet!

Trodat Self-Inking Stamps

The Trodat self-inking stamp offers a price effective alternative to the pre-inked stamp. Efficient and convenient, the Trodat stamp printing die and ink pad are made of the highest quality materials available. When your stamping needs require a quick, repetitive application (e.g. check endorsements), our self-inking stamp is great for the job! The pad can be re-inked or replaced, and the stamp comes in a variety of sizes to fit all your stamping projects.

Cancellations and Returns

Please note that orders for custom-made items cannot be cancelled after manufacturing begins. Return of stock merchandise must be authorized, and made within 26 days of receipt.

Please note, images and sample impressions in this catalog may not be full size. Please double-check all dimensions before submitting orders.

Typestyles for Stamps

Printing in all caps is not recommended for script fonts including Park Avenue, Fredrika and Brush Script. Additional typestyles available upon request.

Experience the Difference

Xstamper - the premier brand name in pre-inked stamps - is recognized in over 80 countries for unsurpassed quality and innovation. Pre-inked stamps require no stamp pad. Just make an impression with an Xstamper and you will immediately notice the difference. Here is what sets them apart from other stamps:

- Durable grip handle for comfort and ergonomic feel.
- Easy to re-ink! Re-inkable reservoir for cost and time efficiency.
- ABS plastic for durability and extra wear.
- Advanced engineering for a clean impression every time.
- 50,000 to 100,000 initial impressions.
- Laser engraved rubber to last the life of the stamp.
- Available in Black, Red, Blue, Purple and Green imprints.

Custom XpeDater

XpeDater prints your custom message along with the month, date and year over a 6-year period. The year band also prints A.M., P.M., REC'D, PAID, FAX'D and ENT'D. All XpeDaters come with an ink cap for portability and an inked base for permanent placement on a desk or counter. Price includes made-to-order dies.

Xstamper	Size	Price
N75	Round 1 1/16" Dia.	\$51.50
N85	Round 1 3/16" Dia.	\$61.95

Xstamper Industrial Stamps

This industrial stamp is ideal for marking any slick or hard to mark surfaces like metal, glass, plastic, leather or other nonabsorbent materials. Drying time is approximately 90 seconds, and the ink is permanent and water-resistant when fully cured. The caps are uniquely designed and engineered to keep ink from drying out, extending the life of the stamp. Available in black, red, blue, green and white.

Self-Inking Daters

One Day Manufacturing Time

Trodat Professional daters are unquestionably the finest and most versatile available. Trodat lets you combine the copy of your choice with the current date. Some of the outstanding features of this dater are:

- Two-color pads to make your impression more noticeable.
- Easy-to-read complete index label to identify wording on dater.
- Pre-inked pads for easy replacement.
- Year bands last 10 years without replacement.
- Perfect for shipping departments or receiving docks.
- Also available as plain (no dates) self-inkers, in black, red or blue.
- Price includes made-to-order dies.

When ordering, please specify color of dates (black or red) and custom copy (black, red, blue, green or purple). Select the size frame nearest the overall impression wanted, and print copy clearly. Daters will be supplied without borders unless requested.

Local Line Daters

One Day Manufacturing Time

Local line daters are great for special applications where a small message and date are required. Line daters print months, dates and years. Date impressions can be instantly changed by turning the knurled wheels to the date desired. Ideal for ledger use, banks, offices, passbooks, accounting entries and libraries. Available in both self-inking and non-self-inking models. Price includes made-to-order dies.

Non-Self-Inking

Alpha / Numeric Stamps

Special Order Band Stamps

Made-to-order band stamps may include any number of bands, alpha or number characters, and any size type. To receive a quote on an alpha/numeric band stamp, follow the three easy steps shown to the right.

Ordering Custom Alpha / Numeric Stamps

- Choose a self-inking or non self-inking model.**
 - Self-inking stamps are available in black, red, blue, green or purple.
 - Non-self-inking models require a stamp pad.
- Determine layout and number of bands.**
 - Our band stamps can be made up of numbers and/or letters. Each letter or numeral position in your imprint is a band. Numeral bands are made up of 0-9. Alpha bands are available as A-M or N-Z. Bands can be arranged in any order. Custom bands, special sizes and configurations available upon request. Please call for pricing and manufacturing time.

FPP2	1 3/4" Dia.	\$13.50

Mark II Quick Drying Ink Pads

A two-sided, reversible stamp pad pre-inked with fast-drying ink for non-absorbent surfaces. When reversed, the new inking surface is ready to be used. Will imprint metal, electronic parts, plastic, etc.. Pad will stay moist for months when properly stored. Ink approved by the Department of Agriculture for use on food packaging. Ready for instant use.

Mark II Stamp Pad Kit

Includes pad, ink and reactivator.

Black, Red or Blue \$56.00
Other Colors Available Upon Request

Additional 2 oz of Ink
Black, Red, Blue, Purple, Green or White \$19.50

Reactivator 2oz \$16.65

Conventional Rubber Stamps

One Day Manufacturing Time

Cushion Handle Stamp

The most traditional style for rubber stamps, it features a deeply etched printing die for thousands of impressions. Can be used with a variety of stamp racks for convenient storage.

Moulding Stamp

A unique style handle provides easier control of stamping action.

Rocker Stamp

This style is best for extra large stamps and those used on a surface that may not be flat. A rocking motion will give a more even, uniform impression.

Stamps will be furnished in the style considered the most practical for the size and intended use, unless otherwise specified.

Letters and figures up to 1/4 inch in height count as one line. Each additional 1/4 inch or fraction in height is considered another line.

Each vertical or horizontal line counts as one line. Oblong, square, oval or round borders count as two lines. Curved lines of type count as two lines. Upper and lower halves of curved lines are counted separately.

Logos should be sent as camera-ready art, and signatures as black roller ball on white paper only. Logos and other art that requires finishing, touching up or extra camera work are subject to added charges of \$60.00 per hour.

New Colorado Notary Laws ...Made Easy!

What you should know about the August 2012 changes from the Secretary of State.

The State of Colorado has changed the laws for notary stamps, effective August 8, 2012.

Embossers are no longer legal for Colorado Notaries.

- The stamps are five lines of type, in the order shown below and contained within a rectangular border.
- The size of the stamp can vary.
- The color of the stamp can vary, but purple, black and blue are the most common colors.
- The "MY COMMISSION EXPIRES" date can be expressed with the month spelled out, or numerically (e.g., 12/25/2012). There is no strict requirement for the date format; however, the date **MUST** be on the stamp. A blank line is no longer acceptable.
- A period will appear after the middle initial (ELIZABETH A. JONES) unless requested otherwise.
- Pepperdines will provide the stamps as shown below, although bold type is not mandatory.

Please note: The new format for notary stamps is not required until the notary's current commission expires. If a notary has time left on their commission stamp or embosser prior to August 8, 2012, their old format stamp is legal.
