Dear Subscriber,

Welcome and thank you for subscribing to our newsletter for the Global Health Governance Programme. Our programme researches how global institutions, finance and rules can better serve the needs of people across the world. We are based in the Centre for Global Health Research within the Usher Institute in the University of Edinburgh Medical School.

We will be sending out a newsletter once a month with information about our new publications, blogs, events and news.

If you have not done so already, please check out our weekly blogs out each Wednesday.
