

Killingly Energy Center

an NTE Energy Project

Public Informational Meeting

Regarding the

Killingly Energy Center

What: The Killingly Energy Center will be one of the cleanest, most efficient natural gas power generation facilities in North America and is proposed for development at the industrial park area at 189 Lake Road, Killingly, CT 06241. The meeting agenda includes a presentation from project developers, Q&A and information boards where individuals can have personal conversations with NTE experts.

When: Wednesday, May 4, 2016 at 6:00pm

Where: The Gold Eagle, 8 Tracy Road, Dayville, CT 06241

RSVP: David Groleau: dgroleau@nteenergy.com, 904-687-1857

Reliable, efficient power for a cleaner America
