Dear Commissioners Ambatielos, Brannon, Geaga-Rosenthal, Hovaguimian and Nunez:

The Bel-Air Association respectfully requests the following Bel-Air hauling route conditions to be incorporated into the haul route permit for Board File Number 150055, job site at 534 North Barnaby Road, Los Angeles, CA 90077.

These restrictions include and are not limited to the following:

1. The vehicles used for hauling shall be 10-cubic yard capacity, 5-axle dump trucks.
2. The total amount of dirt hauled shall not exceed 6,000 cubic yards.
3. Truck crossing signs shall be placed 300 feet in advance of the exit in each direction.
4. No crossing of two hauling vehicles shall be allowed in Bel-Air, i.e., once one hauling vehicle leaves Bel-Air, the next hauling vehicle may enter.
5. All hauling vehicles must be identified by a unique placard prominently identifying the project address and prominently displayed in the front windshield of such vehicle.
6. The hauling operations are restricted to the hours between 9:00 a.m. and 3:00 p.m. on Mondays through Fridays only. No hauling allowed on Saturdays, Sundays or holidays. Haul vehicles may not arrive at the site before the designated start time.
7. All clearing, earth moving, or excavation activities shall be discontinued during periods of high winds (i.e., greater than 15 mph), so as to prevent excessive amounts of dust.
8. All dirt/soil loads shall be secured by trimming, or other appropriate means (other than watering) to prevent spillage and dust.
9. All dirt/soil materials transported off-site shall be securely covered to prevent excessive amounts of dust.

10. General contractors shall maintain and operate construction equipment so as to minimize exhaust emissions.
11. All construction crew vehicles and food trucks to service site workers must be staged/parked on-site and not on Barnaby Road or any residential road in Bel-Air.
12. No haul trucks shall be staged on site or in Bel-Air—a maximum of four (4) trucks per hour will be permitted.
13. All flagmen shall be properly trained and not construction workers taken from a job site and just given a vest and handheld traffic sign.
14. Flagmen must coordinate with other active construction sites in the vicinity to ensure safe direction and flow of traffic to all motorists.
15. All flagmen shall be prohibited from smoking or consuming alcoholic beverages while on duty.
16. All flagmen shall remove all of their trash from the stationed location upon being relieved of duty for any period of time.

Thank you for your time and attention in this matter.

Respectfully yours,

Maureen Levinson
Vice President, Bel-Air Association
Co-chair, Bel-Air Planning and Land Use Committee
