

Call for Proposals

Do you have...

- Expertise with emerging green technologies or materials you can show us in a case study of an exemplary built project?
- In-depth knowledge about alternative housing ownership and community models such as land trusts, co-housing, Baugruppen, or multi-generational living?
- Expertise on policy that promotes green building and equitable development?
- A story about the intersection of climate mitigation, housing affordability, and social equity?

If your answer is yes, we would like to invite you to participate in this year's Built Green Conference!

About the Conference

DATE: September 12, 2019

LOCATION: Lynnwood Convention Center, Lynnwood, WA (just north of Seattle)

OBJECTIVE: To educate about green building, sustainable and equitable community development, and related government policies.

AUDIENCE: Architects, builders, suppliers, and policy makers as well as members of the general public interested in moving the needle of green building and policy.

For more information about the conference, visit builtgreenconference.net

What We're Looking For

The conference will cover a variety of topics related to green building from building science to policy, groundbreaking technical research to discussions on equity, affordability, and community.

Sessions may be lectures, panels, or workshops up to 50 minutes long. Final format and presentation timing will be determined once we review all the submitted proposals.

Proposals will be judged on:

- Compelling and practical information based on experience
- Innovation and originality in approach, ideas, projects, or programs
- Established expertise in the proposed topic and demonstrated skills in dynamic public presentation
- The ability of the speaker and topic to amplify voices of communities historically under-represented in green building discussions.

Please note that session proposals may be combined if the content aligns and a combined presentation would be conducive to achieving the conference's goals.

All speakers will receive a complimentary conference registration.

Submitting Your Proposal

Email a packet to Rob Harrison, Senior Built Green Program Manager, at rharrison@mbaks.com that includes:

- Draft session title
- Abstract of 300 words or less
- Speaker biography of 100 words or less
- Speaker headshot for use in conference materials, if chosen

Submissions must be received by May 21, 2019.
