

Diana Tucker – Marina House Co-ordinator

Marina House welcomed Diana Tucker as its Co-ordinator in May. She has over 24 years' experience in the mental health and addiction field and is a lady in recovery chalking up 26 years of sobriety – one day at a time. She will therefore strengthen the clinical discussions bringing a unique perspective.

This masters' level professional holds a Master of Science/Psychology degree from the University of Phoenix and a BA in Psychology with emphasis in Social Work from the College of New Rochelle, New York (Summa cum Laude). Added to these qualifications - she is also an Internationally Certified Drug and Alcohol counsellor (ICDAC), Qualified Substance Abuse Professional (QSAP) and a Qualified Mental Health Professional (QMHP).

Diana has a strong proficiency in the 12 step philosophy and a proven track record in coaching, mentoring and supervision of clients and staff. Among her many professional accomplishments has been the assistance, leadership and implementation of a mental health programme for children ages 4 – 12 years, with the added responsibility for marketing the programme and co-ordinating staff to meet the needs of the children....A significant success story for that particular organization.

Extensive experience working with women, children and the homeless populations in several different clinical settings, she previously worked with The SAF for two years (November 2012 – November 2014)

The women, children and their families in Barbados are indeed fortunate to have someone with Diana's experience and competence lead Marina House.
