PROFESSIONAL EXPERIENCE

Stoney-Miller Consultants, Inc.; Associate Engineering Geologist, 1997 – Present

Mr. Mozingo's focus is complex site investigations, project planning, and construction oversight from onset to completion for a diverse range of residential, commercial and government projects, large and small, throughout California. Mr. Mozingo specializes in the interaction between earth's materials and processes with engineered structures, with additional focus on seismic hazards, and groundwater related issues. Mr. Mozingo has performed investigations for numerous landslides and mudflows, performed numerous forensic investigations and provided expert witness testimony in deposition and trial for a diverse range of issues. Mr. Mozingo manages our San Jose office and has been an integral part of developing new business throughout the Bay Area.
