

**To:** Village of New Paltz Planning Board  
**From:** Zero Place Team

21 Nov 2017

**Subject: Snow Removal Plan**

1. The Zero Place management team will hire a professional snow management service that services commercial and multi-family housing buildings.
2. Light snow will be managed on site, pushed to available areas on the periphery of the parking lot and available islands. Heavy snow will be carted off site by truck.
3. **Street Parking:** Zero Place management will remove remaining snow that persists in the parking stalls following street plowing.
4. **Sidewalks:** Zero Place management will clear all sidewalks of snow per Village requirements.
