“Jacobs sets the jazz bar high with his scatting abilities... a powerful voice... As a composer, Jacobs has a pronounced style that is uniquely his own.”

“The album has the feel of having been recorded in one or two days, so consistent is the level of inspiration in the performances... when you listen to this album what you hear is that amazing sense of style, his gift for communication, and the way he fits words and music together... the ebb and flow of the band and the singing is so musical that you just enjoy the way it all fits together.”

“A strong, mature and distinctive voice enhances Sidney’s original compositions and his unusual and always interesting variations on familiar songs commands attention.”
