Designer Fretish

DESIGNER FRETISH Sate your desire for unrestrained geometric expression with this season's playful use of fretwork ... design's hottest new obsession. These intricate, interlacing patterns elicit a stimulating effect on forms both soft and hard, such as the *Entwine* vase from **Dillon-Wells**, the *Henredon* stool available at **Filbert & Fig** and the *Dorchester* bar table by **Arteriors**. The *Mandala* screen from **Bassman-Blaine** frames an intimate space for private moments without isolating the casual observer. Reminiscent of a late 19th century corset, the *Pinched Pleat* Shade of the *Bishop* lamp fashions a restrained yet luminous glow. Succumb to your craving and fall head-over-heels for *Byron*—the lounge chair by **PALECEK**; to soften the blow, fluff your surfaces with the fret-influence of Barclay Butera's toss pillows or **Deco Rug Imports'** Tibetan area rug. Have a fretwork fetish of your own? Then slip into these criss-cross Michael Kors stilettos and come take pleasure in shopping these LAMDC showrooms today!
