PASAI Mandate and Objectives

PASAI promotes transparent, accountable, effective, and efficient use of public sector resources in the Pacific.

PASAI contributes to that goal by helping its member SAIs improve the quality of public sector auditing in the Pacific to uniformly high standards.

To that objective, PASAI’s mandate is to strengthen understanding, co-operation and coordination between its members by advocating the interest in good governance and build and sustain auditing capacity while assisting its members to perform their auditing functions. It also serves as a regional working group of INTOSAI and encourage co-operation with other regional working groups.

PRAI

The Pacific Regional Audit initiative (PRAI) is a Pacific Plan initiative.

The PRAI’s overarching objective is to raise Pacific public auditing to uniformly-high standards.

This in turn is expected to improve transparency and accountability in managing and using public resources.
