Cross stitch as noted by colour key. Use 1 strand of floss.

Back stitch motifs in right corner- black lines in GA Holly Berry. Finish into a tiny pincushion, and enjoy for a sweet little finish or gift to a friend.

I used WDW Palomino (Herringbone) Wool felt as backing. I counted out 4 fabric threads, backstitched the outer black line in PC #12 ecru and used that as my guide for cutting the tiny square of wool felt and to finish.

In making a small little chart for a 'free' or thank you pattern; I of course couldn't resist making more, and loved how tiny they were and thought, they are like little finger pillows, and thus the little pyn pillows came to be! The other 3 are together in one chart available from JDD. Enjoy.
