

## Treating Psychosis Utilizing Cognitive Behavior Therapy

Webinar Presented by:  
Cognitive Behavior Therapy Institute  
Thursday, March 2, 2017  
10am - 11:30am  
Signup online at:  
[www.cognitivebehaviorassociates.com](http://www.cognitivebehaviorassociates.com)

Melissa Magaro, PhD, will provide an overview of CBT for Psychosis (CBTp). A treatment that addresses chronic and often debilitating psychotic spectrum illnesses characterized by hallucinations, delusional thinking, paranoia, and reduced social interaction and motivation.

Accredited by the  
American Psychological Association

Participants will learn:

- Individualized CBTp case formulation
- Key methodology utilized in CBTp
- Case management focused on empowerment and supportive recovery

Cognitive Behavior Therapy Institute (CBTI) is an approved APA continued education sponsor. CBTI maintains liability for program content. Joel L. Becker Ph.D., Founder and Director
