DIETARY INFORMATION

NOTICE TO THE READER

Your health and any dietary preferences or restrictions you may have are important to us.

Our menu has been carefully crafted to assist you with these preferences or restrictions.

Navigate the menu below with reference to the Options, Allergens, & Ingredients charts that follow.

On Cross-Contamination

We have strict processes in place to handle dietary restrictions and preferences. From the complete elimination of some allergens and ingredients (eg. Gluten, Eggs, Seafood, Pork) to the careful handling of others by way of separate utensils and sanitation (eg. Dairy, Nuts, Meat). For allergens and ingredients we do handle, we are unable to guarantee 100% the complete elimination or absence of that ingredient in any menu item due to the open & busy kitchen environment in which we operate. However, our commitment to you is that we will take all precautions practicable to avoid cross-contamination when you have clearly stated your restriction or preference.

On Nutritional Info

Nutritional analysis has not been done on the menu and therefore is not available.

Information contained in this document is complete as of publication, November 2017.
