

Senior Mobile Developer

121nexus is a technology company focused on the automated distribution of information through our mobile sensing technology. Our business model is B2B Enterprise SaaS. We are growing revenue 300% year-over-year and are cash flow positive. Our current clients are global leaders in med device, CPG, and chemical innovation.

We are looking for a Senior Mobile Developer responsible for the development and maintenance of applications aimed at a range of iOS and Android devices. Your primary focus will be the development of a mobile SDK for both iOS and Android platforms that integrates with the 121nexus platform and back-end services. You will be working alongside other engineers and developers working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and the creation of quality products is essential.

Strategic thinking, innovation, analytical insight, communication, and cross-functional teamwork are essential to the success of every element of our business. We take smart risks, solve important problems and adapt and iterate quickly. We are looking for someone who is passionate about this space, is ready to join a team that is made stronger through innovation and collaboration.

About you:

You're someone who wants to see the impact of your work making a difference every day. Your friends describe you as extremely tenacious, thorough, and detail-oriented. You are someone with high standards who's not afraid to push us to be better by example, and who will take pride in 121nexus like we do.

Responsibilities:

- Design, build and maintain mobile applications and SDKs for the iOS and Android platforms
- Ensure the performance, quality, and responsiveness of applications and SDKs
- Create and maintain documentation for SDKs including implementation guidelines
- Collaborate with a team to define, design, and ship new features
- Identify and correct bottlenecks and fix bugs
- Help maintain code quality, organization, and automatization
- Provide support to sales teams both internal and channel partners as it pertains to implementation of SDKs

Skills, Abilities, Competencies:

- Proficient with one or more of the following mobile development languages: Objective-C, Swift, Java, other C-based languages
- Experience with mobile frameworks such as AVFoundation, Core Data, Camera/camera2 (android), etc.
- Experience with offline storage, threading, and performance tuning
- Familiarity with RESTful APIs to connect mobile applications to back-end services
- Knowledge of other web technologies and UI/UX standards
- Understanding of Apple’s Human interface guidelines (HIG) as well as Android’s material design principles
- Experience with performance and memory tuning with tools such as Instruments
- Familiarity with cloud message APIs and push notifications
- Proficient understanding of code versioning tools such as Git, Mercurial, or SVN
- Familiarity with continuous integration tools such as Jenkins
- Experience being part of a development team utilizing agile methodologies
- Willingness to travel
