### Staff Posts

- **Area Staff**: 6,684
- **International Staff**: 15

---

(1) All Syria figures represent a working estimate as the situation in Syria remains volatile.
(2) This figure is based on data drawn from UNRWA registration data as of January 2018.
(3) Based on four antenatal visit minimum.
(4) UNRWA supports community society organizations, including CBOs, through partnership agreements. The Agency’s engagement with these organizations is defined by the 2016 Agency Partnership Framework and obliged by individual Memoranda of Understanding.
(6) Number of jobs for a year or full-time equivalents.
(7) Figures refer to those on staff contracts.
(8) Agency total includes staff in HQ Amman.
(9) Agency total includes international staff in HQ Amman and UNRWA Representative Offices staff.
UNRWA is funded almost entirely by voluntary contributions and financial support has been outpaced by the growth in needs, driven by conflict and broader instability. As a result, operations under the UNRWA Programme Budget, which supports the delivery of core essential services, faces chronic challenges due to funding shortfalls. UNRWA encourages all Member States to work collectively to exert all possible efforts to fully fund the Agency’s Programme Budget. UNRWA emergency programmes and key projects, also facing large shortfalls, are funded through separate funding portals.

**Pupil Enrolment in UNRWA Schools**
