### **MENINGOCOCCAL B VACCINE HERD IMMUNITY STUDY**

**KIAS Participation of Year 10,11 and 12 students in 'The B Part of It ' Study**

The licensed meningococcal B vaccine (Bexsero®) is being offered to **all year 10, 11 and 12 students in 2017** at our school by the South East Regional Community Health Service as part of The South Australian B Part of it Meningococcal B Vaccine Herd Immunity Study.

During 2017 - 2018 each participant will:

- Receive 2 doses of Meningococcal B (Bexsero®) vaccine
- Complete 2 single page questionnaires (1 if student is in year 12)
- Have 2 throat swabs taken (1 if student is in year 12)
- Receive a \$20 iTunes card after having each throat swab

Immunisation consent packs have been sent home to all eligible students. It is important that you read the information contained in the pack before you provide consent for your child to take part in the study. The student is also required to provide their consent to participate in the study by signing and dating the consent form. **The vaccine is licensed in Australia and recommended for use in adolescents and toddlers.**

The Meningococcal B vaccine is also licensed in Europe, Canada and the USA where it is being used to protect children against meningococcal B disease. Up to 25% of adolescents carry the meningococcal bacteria in their throat. While this may not cause illness to themselves, the adolescent has the potential to spread the bacteria which may cause disease in others.

The study aims to determine whether the Meningococcal B vaccine has the additional benefit of preventing the spread of the meningococcus bacteria from person to person.

**If you have any questions about this program, please contact the South East Regional Community Health Service, Immunisation Provider, Amanda Turner on 87334755 or the Immunisation Section, SA Health, Monday - Friday, 8.30am - 5pm on 1300 232 272.**
