

ECONOMIC AND SOCIAL COUNCIL

Sponsors: Kingdom of Saudi Arabia, Costa Rica, Belgium, France, United States of America

Signatories: Venezuela, Egypt, Syria, Germany, China

Topic: Creation of Framework and Goals for Sustainable Development

The Economic and Social Council,

Noting with deep concern that overwhelming abundance of garbage pollutes the environment all over the world

Reaffirming previous UN resolutions on the issues of sustainable development and environment protection

1. *Encourages* more developed countries to collaborate closely with countries that struggle with garbage recycling
2. *Recommends* to launch mass media propaganda considering environmental protection through recycling
3. *Calls upon* the establishment of non-governmental organizations, educational courses, workshops, lectures to promote the idea of recycling among the young generation in particular
4. *Requests* all members to make financial contributions to the international grant system, with grants being awarded to country representatives that come up with the most innovative ideas on eco-friendly garbage recycling
5. *Urges* all members to consider implementation of increased taxes on deforestation in order to encourage companies to turn to alternative resources
6. *Further requests* all members that have water scarcity problem, to establish more water cleaning factories based on the experience of Costa Rica in this issue.
