

EAT FRESH, WASTE LESS AT FARMERS MARKETS THIS SUMMER WITH IMPACT EARTH!

For Immediate Release
May 25, 2017

Eat fresh and waste less this summer by shopping at local farmers markets throughout the Rochester area.

Impact Earth announces their management of 5 farmers markets this summer season. As a Rochester based zero waste consulting company, Impact Earth offers both farmers market management and zero waste services for community markets. Each market showcases local vendors, live local musicians, and zero waste kids' activities. All shoppers are encouraged to bring their own reusable bags and containers in an effort to support the zero waste market experience.

Impact Earth farmers market network includes the Churchville Community Farmers Market, Mendon Farmers Market, Pittsford Village Community Farmers Market, and the Lakeside Farmers Market. Additionally, Impact Earth is launching a brand new community market this summer located in the Village of Bergen. The company is also providing support to the Brighton Farmers Market every Sunday by donating their zero waste services.

"The mission of our farmers market network is to provide local agricultural products and services for the community while providing low cost retail space for vendors. We believe that by providing zero waste markets, we can help encourage holistic healthy and environmentally friendly lifestyles in our communities."

- Robert Putney, Impact Earth Co-Founder and CEO
