

# Transparency Report

At 110% we are committed to trust and transparency. As part of this commitment, we publish periodic reports about requests for data by law enforcement and governmental entities. The latest report is below. More information about our policies and practices with respect to data (including definitions of terms not defined herein) can be found in the [Privacy Policy](#), [Security Policy](#) and [Data Request Policy](#).

In addition to our belief in the importance of trust and transparency, as outlined here and in our policies, we believe in the importance of fundamental privacy protections and judicial oversight of government data collection and surveillance.

## Guiding Principles

- We are committed to maintaining Customer privacy and confidentiality
- Every request is carefully reviewed for valid legal process
- All requests will be construed narrowly by 110%
- Wherever possible we encourage Customers and third parties to seek data without our intervention

## Requests for information through legal process

This report covers all such requests received from January 01, 2017 through July 27, 2017

During this period, we received a total of 0 requests for information from UK law enforcement and governmental entities. Of those requests, 0 were found valid and resulted in the disclosure of Non-content data, 0 are pending, and 0 were invalid. We have not received any requests for information from, nor have we provided any information to, non-UK law enforcement authorities.

<b>Type of request</b>	<b>Number of requests received</b>	<b>No information disclosed</b>	<b>Only non-content data disclosed</b>	<b>Content data and non-content data disclosed</b>	<b>Pending</b>
------------------------	------------------------------------	---------------------------------	--	--	----------------

---

## Definitions

“Content data” Includes user generated data (such as public and private messages, posts, files and DMs).

“No information disclosed” Reflects that 110% objected to the validity of the demand or did not have responsive records.

“Non-content data” Basic account information (such as name and email address, registration information, login history and billing information) and other non-content metadata (such as the date, time, and sender/recipient of messages or files).

“Pending” Requests received by 110% that have not yet been analysed by 110%.

“Search Warrant” A demand issued by a judge or magistrate to search or seize the property or place described therein.

“Summons” A formal, compulsory demand for the production of documents or testimony issued by a governmental entity or court
