3rd book in Jace Forman Series

Cal Connors, the well-known Fort Worth prosecutor of dubious morality, is suing *Texas Matters Magazine* over a damning profile that he believes will hurt his reputation—as well as bring him unwanted attention from the U.S. Attorney’s Office. The author of the article, veteran reporter Leah Rosen, has recently suffered a setback of her own: the man who tortured and sexually assaulted her (at the request, she believes, of Connors himself in an attempt to quash her story) recently beat the charges against him by outlawyering the state. When Rosen learns that Connors is now suing her in a multimillion-dollar defamation case, she seeks representation from the one attorney who turned Connors down: his longtime rival, Jace Forman. With a history of defending corporations against the suits of individuals, Jace is uniquely suitable for the job, but Connors and his daughter Christine will stop at nothing to retain their family secrets and the fortune that they protect. Cornered and desperate, Connors and his daughter go on a scorched-earth offensive, taking the reader on a riveting ride through complex interpersonal relationships, gruesome murders and a lurid kidnapping, which climaxes in a dramatic courtroom showdown.

2nd book in Jace Forman Series

In the gripping sequel to Hubert Crouch’s bestselling *Cried For No One*, Texas attorney Jace Forman is back and better than ever in a ripped-from-the-headlines legal thriller full of mystery, intrigue and courtroom suspense.

Proclaiming himself as “God’s only living prophet,” Ezekiel Shaw and his fanatical followers at the Brimstone Bible Church preach a gospel of hate, picketing the funerals of fallen soldiers, and praising God for sending America’s soldiers back in body bags—“punishment” for the godless path America has chosen.

But when they disrupt the funeral of Second Lieutenant Lauren Hanson, a West Point graduate killed by a roadside bomb in Afghanistan, they find themselves relentlessly pursued through the courts by hard-charging Fort Worth trial attorney Jace Forman, who is determined to put an end to their crazed crusade no matter the cost.

As the case churns toward trial, *Texas Matters* reporter Leah Rosen investigates flamboyant plaintiff lawyer Cal Connors and his daughter Christine, drawing closer to uncovering a massive judicial scam involving untold millions in manufactured jury awards. As she searches for truth, Leah is stalked by sinister forces that will stop at nothing to keep her from revealing what she knows, while Jace must battle the odds and the clock in his quest to bring Shaw and his followers to justice.

Blending fast-paced action with authentic courtroom drama, *The Word* will keep readers enthralled from disturbing prologue to nail-biting conclusion.

Editorial Reviews for
The Word

“Crouch is a fine practitioner of the courtroom drama. He knows just how to bring a legal case to life without having to dress it up or dumb it down. His prose is precise and clear, pushing readers forward with an understated elegance. Characters—heroes, villains and those in between—are fully formed creatures with personal hungers, demons and large helpings of Texas personality... the pages all but turn themselves as each scene builds on the next, working outward in a spider web of connections, complications and coincidences... Inspired by news headlines, this timely novel illustrates how even the simplest seeming disputes are complex in the eyes of the law...A topical, lively legal thriller.”

—*Kirkus Reviews*, on *The Word*

“Be ready for a wild ride! In *The Word*, real life attorney Hubert Crouch provides masterfully connected, multiple story lines that could have been ripped straight from the headlines. Corruption, greed and danger criss-cross with the pursuit of honesty and truth for a page-turning, action packed story. Though this is book two in the Jace Forman series, it absolutely stands alone, though I fully intend to read book one. Crouch is in his element as the courtroom drama unfolds, writing memorable and unique characters – all with a Texas flair – for readers to love or loathe. The writing is high caliber and the story is engaging and realistic, with memorable characters. Top notch.
