

VC Profile

Catalyst Founders

The vision of Catalyst Founders is to find the best young entrepreneurs from across the country. They believe that the current education system does not support and value innate entrepreneurial talent. They look beyond stellar academic performance and perfect CVs, to the makers, doers and creators, seeking to support by providing investment, a great network and an important startup 'toolkit' to help young founders survive and thrive.

They focus on the entrepreneur.

We are trying to find the best entrepreneurs from up and down the country. It certainly helps if your business concept is mind-blowing, however they recognise that most businesses end up looking very different from their original concept.

They are looking outside of high technology.

Although technology has undoubtedly changed our lives for the good, there are still plenty of great opportunities for young entrepreneurs to grow businesses that are not solely technology focused. We love technology enabled companies, however it is the quality of the product and service that we are looking for.
