

GIANNETTI
FURNISHINGS

We believe in homes with emotion and the power of natural light in a modern sense of space. We believe in a simple palette of natural materials and the power of antiques to convey history. We know that classical proportions hold the key to beauty, and a little romance is a good thing.

We designed the Giannetti Furnishings Collection to work with the proportions and scale of the antiques that we love.

Our pieces are inspired by classic designs with a contemporary timeless feeling.
