

Event summary report BAE 2019 Q1 Series

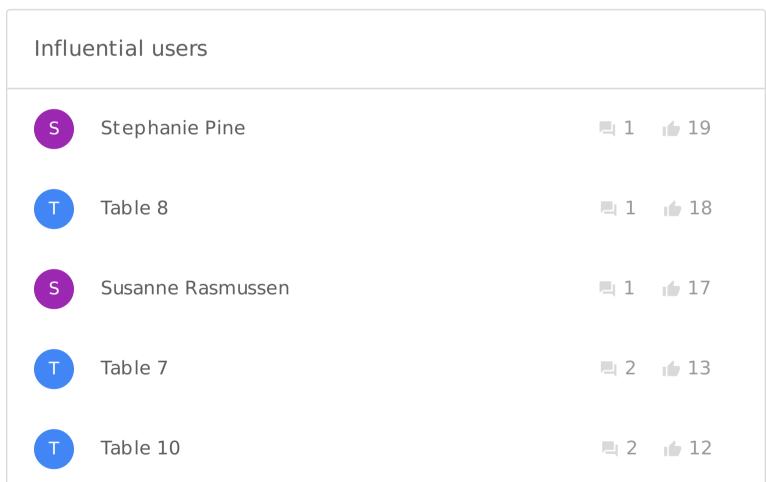

BAE 2019 Q1 Series

13 - 16 Feb 2019

Poll results

What will have the greatest impact on Boston's aspiration for greater energy resiliency?

properly working community regulation rule working regulators city project technologies proper

existing incentives data area district develop microgrids systems

utilities private **public** q2: energy

program

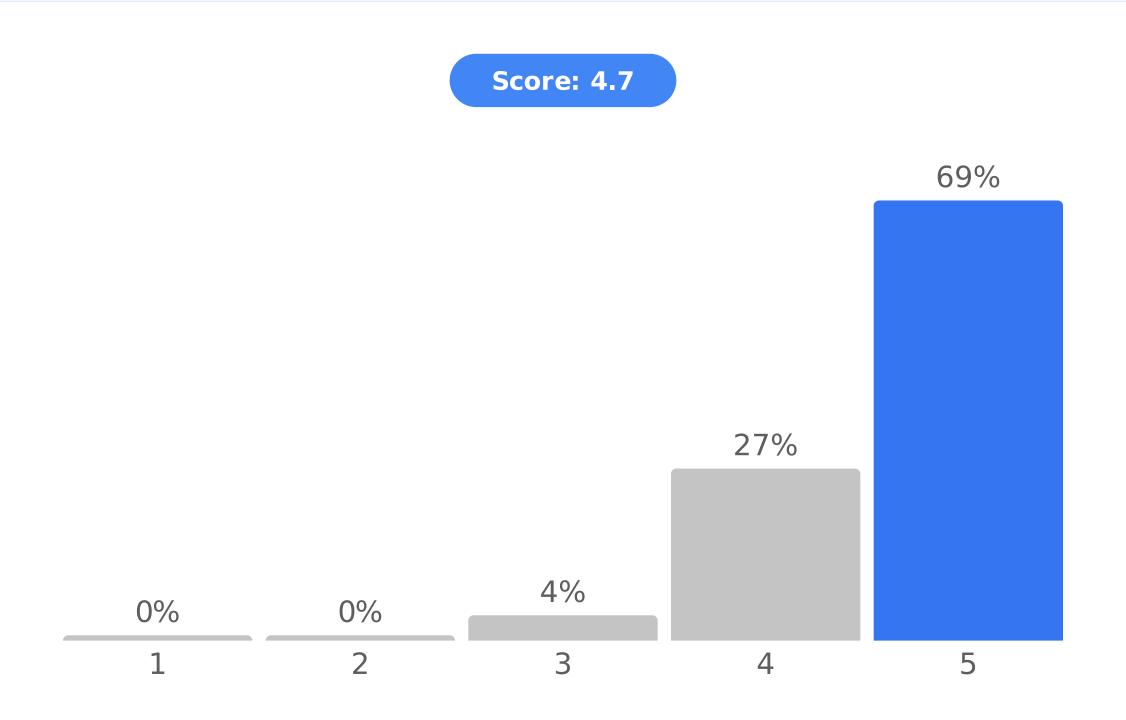

regulatory rise electrification support new resiliency collaboration renewable

Q1 Post Event Survey (4/9)

0 2 6

How likely are you to recommend AEG events? (5 = very likely)

Q1 Post Event Survey (5/9)

Do you have any suggestions for a Discussion Leader at our next event?

- A Utility Engineer
- sessions and progress
- Really well organized discussion today. Perhaps more • Enforce the deadlines time to combine ideas at the end?
- Don't talk during voting time.
- Kalilah Barnett, Barr Foundation
- Chris Rezendes impact labs
- Leading property developers and

- private sector industry leaders
- Highlight outcomes of previous
 Encourage working together outside of the events to realize these hypothetical solutions

Q1 Post Event Survey (6/9)

0 1 3

What suggestions do you have to improve AEG events?

(1/2)

- Utilize more examples of successful projects and the benefits they provided.
- Provide preperatory materials ahead of time.
- More diverse participants
- Invite more relevant state
 elected leaders and regulators
- Share contact information of attendees or app to interact
- Allow more time for workshop, and less use of house audio as it makes it hard to

- focus on group discussion
- Microphone; a little more time for planning for event so conversation can be anchored in data, information, and context; a little more time for discussion table leaders; and resources, references for better discussion and decisions
- Reliable microphones!
- More group discussion
- Altho I like the discussions and interactions, is it possible for

Q1 Post Event Survey (6/9)

What suggestions do you have to improve AEG events?

(2/2)

Sli.do to have more than 160 characters? Although I wouldn't recommend too much more writting space, each group I was with had to "dumb down" some key insights to make it fit.

- More continuity and connection between events
- A bit more time on content
- None

Q1 Post Event Survey (7/9)

0 2 0

What do you see as the key challenge identified today? (1/2)

- Utility standards are restrictive to implementing microgrids.
- Numerous stakeholders and regulations must be integrated and overcome to make the vision a reality at any kind of scale.
- Financing
- The need for state and utility (via regulatory latitude) support for energy resilience investment
- Utility engagement

- Continuing everyone's engagement and support for this idea
- Policy and incentives
- How to realize urban resiliency
- Identifying legislative and regulatory barriers to resilience.
- Critical thinking to manage default flawed thinking rooted in emotion and driven by assumptions and anecdotal experience to

Q1 Post Event Survey (7/9)

0 2 0

What do you see as the key challenge identified today? (2/2)

improve how these types of projects are developed and implemented.

- Stakeholder engagement
- Push for a legislation
- Too many policy and regulatory hurdles
- Existing regulations and utility franchise rights.
- Public and private sector partnership along with communities.
- Resiliency challenges for multi

property owner areas

- More time for open group discussion
- Lack of Microgeneration locations
- The need for incentive discovery to get key stakeholders involved implementing resiliency.
- Enjoyed

Q1 Post Event Survey (8/9)

To address this challenge, what actions do you think need to happen in the next 12 months? (1/2)

- The utility standards will need to be modified to allow microgrids.
- Heavy stakeholder
 engagement and technical
 analysis to surface the key
 barriers and opportunities
- Analyze revenue streams and form partnerships
- Advocacy and coordination across government, utility and private sector

- Follow up each quarter via newsletter or email to group.
- Legislative efforts
- Workshops to have a more sophisticated understanding of inequities and opportunities for advancing equity.
- Convene the stakeholders and project manage to submit the application
- Strong effort from Brad :-)
- See table 8 solution statement

Q1 Post Event Survey (8/9)

To address this challenge, what actions do you think need to happen in the next 12 months? (2/2)

- Assign discussion / group leasers in advance for each table
- Prioritize identification of pilot sites
- Standardized regulatory framework for Microgrids

Q1 Post Event Survey (9/9)

Would you like be a part of the task force?

Yes
