RE: Susan Culbertson, CPA

To Potential Client:

I have had the opportunity of using the professional services provided by Susan Culbertson, CPA. She assisted us with a complex partial accounting of funds managed by an attorney-in-fact who kept very poor records. Susan provided excellent quality, and possessed professionalism and efficiency in her work. Moreover, she allowed us to trace misappropriated funds without incurring the costs of a full-fledged accounting. Such practicality saved my client thousands of dollars, and streamlined the process.

I highly recommend her services to other attorneys in need of professional accounting services related to Powers of Attorney or other accounting matters.

Sincerely,

COPENHAVER, ELLETT & DERRICO
