

Introducing Olive, your 24/7 Virtual Care Assistant

NO INTEGRATIONS

Olive uses your existing applications and is EHR agnostic

FULL AUTOMATION

Prior authorizations, eligibility, appointment reminders, and more

AROUND THE CLOCK

Olive works 24/7 and never takes breaks, sick days or vacations

Olive becomes a valuable employee by automating repetitive, high volume tasks, allowing your staff to focus on the most important thing—your patients.

Using Artificial Intelligence, Olive will double your productivity at half the cost. By granting user access, Olive enters and transfers data in numerous systems with a simple command. Over time, she will offer recommendations and solutions to create more efficiencies for you and your staff.

OLIVE'S INTERNSHIP PROGRAM

Hire Olive

Set her up with the necessary accounts, give her 2 weeks of training and select a team for her to join. Let her start taking on workflows like eligibility and assess her progress.

Olive is easy to onboard and does not require integrations.

No need to take on additional workflows, as Olive doesn't require staff training and works with the existing systems and tools you already have in place.

Think of her as your newest hire: Olive gets an email address, a VPN, an EHR account, and any necessary tools that are a part of your staff's workflow.

What can Olive do for your organization?
